The College Success Program is designed to prepare students for successful college admission. This program has been developed to educate middle and high school students on the college admissions process.

### Goals of this program include:

- Teach youth successful test taking strategies
- Teach families about available college preparation resources
- Teach families about college expectations
- Teach youth how to develop better study habits
- Help families develop successful college prep strategies
- Help families find funding for college
- Increase number of college attendees from lower income communities

## From our CEO

"This program will help to break many of the cycles we see in low income communities. We are looking to increase college admittance from traditionally low performing areas. Through increasing availability to resources, knowledge and proper guidance we will help families achieve the dream of having their children attend college."

Sugar Ray Destin, Jr.  
CEO, CYD Enterprises
