JULIE VERS
CONSULTING ENGINEERING

CAPABILITY STATEMENT

Founded in a small office in West Palm Beach, Florida, **JVCE** started as a one-woman operation. Our principal and founder, Julie Vers, PE, had a vision to create a structural engineering firm that prioritized our clients while **promoting innovation, collaboration, and exceptional professional service.**

JVCE is a DBE, SBE/WBE certified firm. Julie brings 27 years' structural engineering and project management experience to the team. Her passion for solving structural engineering challenges took her on a journey through a prolific and diverse career as a consultant engineer for some of the country's top firms as rated by ENR.

We serve both the public and private sectors. **JVCE puts clients first and solves their structural challenges on-time, on-budget and with exceptional attention to detail and service.**
