# Barbarroja's Invasion

## INTRODUCING BARBARROJA'S INVASION

ADventura Barbarroja's Invasion is the newest chapter in the tales of ADV and McKay with a darker and more aggressive approach to their quest for world domination. The aromas of nougat, sweet wood, and black pepper invade the senses while still maintaining balance and harmony for a new way of Dominican style blending.

## The Explorer

The first line created to begin the journey between ADV & McKay. Two explorers set out to see the world and share flavors, culture, and experience rolled into one perfect series of moments. Immediately after lighting up ADVentura The Explorer, the Mexican wrapper will delight the aficionado with its dark chocolate flavor. Then the combination of the wrapper and the Dominican filler pair together to expose a spicy, nutty, and leathery aroma, that is finally topped off with a layer of wooden sweetness from the Ecuadorian filler.

# The Navigator

The second line to set sail with ADV & McKay. ADVentura The Navigator is the most complex of all ADV blends. Tobaccos from five different origins are blended to offer a bouquet of mocha and roasted nut. As all the elements combine throughout the smoke, leathery spice, and hints of toffee and caramel combine to linger and delight the palate.

# The Conqueror

The third line to gain ADV and McKay momentum in their travels. ADVentura The Conqueror, introduces dark chocolate with a hint of salt. We blended this to tobacco to remain intact as you smoke your way through to maximize flavor profiles. At the halfway point, sweetness, caramel, and sweet wood join in for layers that compliment and excite the palate.

Conquer with balance, character, and flavor that lingers.

ADVENTURA The Royal Return Queen's Pearls offers aromas of sweet wood, vanilla creme, and hazelnut.

This is an ADV interpretation of a classic Connecticut smoke, we used a select series of tobaccos that received special fermentation to stay light on the palate, but offer more lingering flavor whether you choose to puff or retro hale.

## KING'S GOLD

ADventura The Royal Return King's Gold offers aromas of salted chocolate, honey, toast and cinnamon.

The tobacco used for this blend is quite rare, so we are forced to produce super small batches, and monitor the delicate complexity, flavor, and balance with each step. The flavor profile we strive to achieve with this blend is quite specific, therefore, the tobacco dictates the production.

# ADVentura Cigars

## ABOUT US

ADVentura Cigars is a cooperation between Henderson Ventura of Tabacalera William Ventura in Dominican Republic and Marcel Knobel, of Switzerland. Henderson is considered the youngest master-blender in the industry and responsible for the blends of some the most well-known brands on the market today. Marcel is a cigar retailer, tobacconist, and certified wine sommelier with a background in marketing. Together, the goal is to personify Dominican Passion and Swiss Precision with ADVentura Cigars.

For Henderson, being a boutique brand is all about the ability to secure more rare and smaller quantity tobaccos that mainstream brands would never dream of having. "Blend wise, it give us creative freedom, and competitive edge."

For Marcel, maintaining brand awareness with visual consistency is key. While he and Henderson create and refine blends together, Marcel continues developing chapters of the ADV story with each new launch, to keep the smoker engaged and excited with all the senses.

ADVentura retells the story of the origin of tobacco from the old world to new and back again with, The Explorer, The Navigator, The Conqueror, The Royal Return, and now the chapters turn a bit darker and more aggressive with the NEW Barbarroja's Invasion.

If there's one thing we can say about ADV, "We're Here to Stay."
