E-mail orders@crlaine.com

Terms Net 30 or prepay - FOB Hickory, NC

Dye Lot Matches Fabrics and leathers received at different times will have dye lot variations. We cannot guarantee in-stock dye lots will match the dealer swatch or product previously received. While we do not offer CFA (cutting for approval), you can send a swatch or cutting for us to try and match. "Sending cutting for dyelot match" must be written on the order.

Acknowledgements Dealer will receive two emails. The first acknowledgement denoted as "Order Received" acknowledges receipt of your order. Check immediately for accuracy, and in the event of an error contact customer service as soon as possible. If you are a prepay account and there are no changes to your order, this acknowledgement is your notice of deposit due. Materials will not be allocated for your order until deposit is received. The second acknowledgement denoted as "Order Confirmed" is generated once your order has been processed through our credit department. At this point materials have been allocated to your order.

Ship Dates Estimated ship dates are approximate and subject to fabric and frame availability beyond our control.

Split Shipments Sold orders will ship complete, unless otherwise requested. Stock orders will split ship as ready, unless otherwise requested.

Cancellations Cancellation requests must be in writing. We cannot honor a cancellation request once the order has been scheduled for production. Cut yardage orders cannot be cancelled after we have ordered the yardage.

Freight Collect: If no carrier is specified, we will ship via our best available mode and routing.

Third Party Billing: You must have a prior agreement with the carrier. The carrier must be specified and the order must have a complete bill to address and telephone number. Shipments must be picked up within 10 business days.

Prepaid Freight: Prepaid freight requests will be charged a \$20 handling fee.

UPS and FDX: All shipments will be charged a \$10 handling fee.

Freight Loss + Damage The risk of loss passes to our dealer when product is accepted by the carrier. After being carefully inspected at the factory, the responsibility for the product's safe delivery is assumed by the carrier upon acceptance. Because subsequent damage or loss is the carrier's responsibility, our dealer must file a claim with the carrier as:

Concealed: Loss or damage that is not visible or apparent until the product is unpacked must be reported by our dealer to the carrier within 5 days of receipt by submitting a written request for an inspection to the carrier.

Visible: Loss or damage discovered at the time of delivery must be noted on the freight BOL (bill of lading) to insure proper documentation. Inadequate description of damage may result in unnecessary delays or refusal by the carrier to honor a damage claim. This note should be signed by the carrier's agent/driver.

RETURNS + REPAIRS

- Returns** Written factory authorization must be obtained prior to any return. The dealer will be responsible for properly packaging the product for return. Repaired product will be returned free astray (if offered) with the original freight carrier. The dealer provides transportation between the customer and the dealer without reimbursement. Returns must be within 90 days of written factory authorization.
- Deluxing, Touch-up, + Minor Repairs** Once unpackaged, occasionally product will need deluxing (i.e., steaming), touch-up, or minor repairs. Dealers provide these services without reimbursement as part of the dealer's normal service obligation.
- Local Repairs** Charges for local repairs will not be accepted without prior factory authorization. Repairs must be completed within 90 days of written authorization.
- Sales Aids** Sales materials including swatches, binders, catalogs, and price lists remain our property and can be reclaimed at any time.
- UFAC** The Upholstered Furniture Action Council (UFAC) has been working to reduce death and injuries from residential fires since 1978 through consumer education and an industry-leading product testing and verification program. Upholstered furniture bearing the Make Life Safer more resistant to dangerous smoldering fires and is consistent with CPSC's furniture flammability standard. The program also screens for the presence of the most commonly used flame-retardant chemicals. Learn more at <https://ufac.org/green-tag/>

FURNITURE CARE

- Furniture Care**
- Avoid placing your fabric and leather upholstery in direct sunlight, and maintain a safe distance from any heat source.
 - Vacuum your fabric upholstery often to prevent dust and other debris from becoming embedded in the fabric. Use the upholstery attachment to vacuum the surface of your upholstery as well as underneath the cushions.
 - Reverse (top-to-bottom) and rotate (side-to-side) seat and back cushions often to distribute wear. Fluffing cushions at the same time will keep the fill evenly distributed to minimize wrinkles and maintain the cushion loft and shape. Watch "Product Care" videos on our web site.
With use, "comfort wrinkles" will begin to appear in the cushions and will be particularly noticeable with larger/longer cushions. This slight and expected softening of the foam and flattening of the fiber and feather components is a natural part of the upholstery maturing process and is not a material or manufacturing defect.
 - Feather/down fill is standard in all throw pillows and requires frequent fluffing to maintain the loft and shape. Feathers and down may occasionally work their way through the downproof ticking. This is normal and evidence of air properly moving through the pillow.
- Leather Care**
- Dust your leather upholstery periodically with a soft, dry cloth to prevent dust and debris from building up.
 - Never use harsh cleaners or solvents on leather as they could abrade the leather's finish or topcoat.
 - Any spill or stain should be blotted immediately with a soft, dry, white cloth.
For stubborn spills and stains, a lightly damp cloth with warm water should be blotted on the stain to lift and remove it.
If this does not work, a diluted solution of mild soap (color free and Ph neutral) and water should be mixed and then blotted to release the stain, and then blotted again with a dry, white cloth. With each option, BE SURE TO BLOT - NOT SCRUB. Cleaning should never be done heavily or in a scrubbing motion.
 - Clean an area at least twice the size of the stain. Allow the area to dry naturally as the application of heat can harden the leather.
 - **All aniline dyed leather will fade from exposure to sunlight.**
 - View "Leather Care" content on our web site.

FABRIC CARE + CLEANING

- Fabric Care**
- The fabric cleaning code can be found on our website. This code provides instruction for spot cleaning. If something other than spot cleaning is necessary, we recommend professional cleaning.
 - When spot cleaning, blot the stain immediately with a clean, absorbent cloth to remove spilled material. If the stain remains, do some deeper cleaning according to the fabric's cleaning code. Clean from the outside to the middle of the stain to prevent circling.
 - We cannot guarantee the wearing qualities nor color fastness of any fabric. In no way will we assume any responsibility for the fabric cleaning method selected. While provided for assistance in the general spot cleaning and maintenance of your upholstery fabric, these guidelines are in no way meant to imply that fabrics cannot be soiled or worn beyond repair.

Fabric Cleaning Codes

Code S: Spot clean with a water-free dry cleaning solvent. Do not saturate. DO NOT USE WATER. Pile fabrics may require brushing with a non-metallic, stiff bristle brush to restore appearance.

Code W: Spot clean using the foam only from a water-based upholstery cleaner. Apply foam with a soft brush in a circular motion. Avoid over-wetting the stain. Vacuum when dry.

Code WS: Spot clean with a water-based upholstery cleaner, foam from a mild detergent, or mild dry cleaning solvent. Do not saturate. Pile fabrics may require brushing with a non-metallic, stiff bristle brush to restore appearance. Hot water extraction or steam cleaning is NOT a recommended cleaning method. Cushion casings should NOT be removed and laundered or dry cleaned.

Code X: DO NOT use water or solvent-based cleaners of any type. Clean only by vacuuming with a soft brush attachment.

Once you have determined your cleaning code, pre-test the cleaner on a small inconspicuous area to insure color fastness. Spot clean the stain from the outside to the middle of the area to prevent circling. Use a professional cleaning service if an overall soiled condition has been reached.

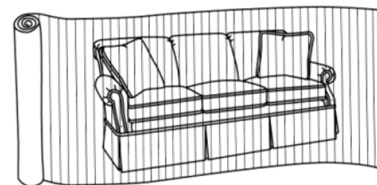

FABRIC APPLICATION

Fabric Application

Patterned fabrics will have what we determined to be the main focal point centered on the back cushions and on the seat cushions. When applicable, the focal point will flow from the seat cushion top, to the seat cushion border, the seat front, and onto the skirt. Fabrics are either cut "railroad" or "regular/up the bolt" depending upon the direction of the pattern. The illustrations below further explain these terms. Fabrics that are not "railroad" will require seaming when applied to long cushions and tight backs. If possible, we cut fabrics "railroad" to avoid these seams. But, if not possible, we will position the necessary seams at our discretion.

**Regular Application
(Up The Bolt)**

Railroad Application

WARRANTY REQUIREMENTS

Warranty Requirements Warranty periods begin at the date of invoice from us to our dealer and are extended only through the original dealer and only to the original consumer-owner. All warranties are void if the product has been re-upholstered or placed outside of ordinary residential use.

The consumer-owner makes a service inquiry to the dealer from which the product was purchased. The dealer will then contact us.

If service is necessary, we will work with our dealer to determine if the product can be repaired locally or if the product needs to be returned to our factory.

Written factory authorization must be obtained prior to any local repair or return. The dealer will be responsible for properly packaging the product for return. Repaired product will be returned free astray (if offered) with the original freight carrier. The dealer provides transportation between the consumer-owner and the dealer without reimbursement. Local repairs and factory returns must be completed within 90 days of written factory authorization.

CONSTRUCTION FEATURES + WARRANTY

Frame Frames are made using 5/4" or thicker kiln-dried select hardwoods or engineered hardwoods from verified sustainable forests. Joints are double-doweled, glued, screwed and blocked on every corner or mortise + tenon construction for rigidity and strength. All frame components (excluding legs) are warrantied against defective material and workmanship for life.

Dimensions: Dimensions listed are approximate and may vary due to fabric thickness, internal filling, as well as subtleties of the craftspeople involved with a product's manufacturing. The dimensions and appearance of a sleeper will vary from the matching non-sleeper frame due to modifications required to accommodate the mattress mechanism. We reserve the right to make minor construction or design changes for product improvement.

Suspension Stong polypropylene sheeting and steel strapping provide lasting support for rows of double-cone coil springs. Made from recycled steel, these springs are clinched to prevent shifting, then interlaced and hand-tied with fine twine in eight directions. Due to construction requirements, some pieces will have either sinuous springs or webbed-based construction. All components of the suspension are warrantied against defective material and workmanship for life.

Motion Mechanisms SW-swivel, SG-swivel glider, and SR-swivel rocker mechanisms, as well as MR-manual recliner and PR-power recliner mechanisms are warrantied against defective material and workmanship for 3 years.

Power Recliner Battery + Switch PR-power recliner battery and control switch are warrantied against defective material and workmanship for 1 year.

Sleeper Mechanism Sleeper mechanisms are a contract series by Leggett and Platt and are warrantied against defective material and workmanship for 3 years. They feature a double locking TV headrest.

Sleeper Mattress Standard: All components of our standard Kingsdown® sleeper mattress are warrantied against defective material and workmanship for 5 years.

Air Dream®: The mattress, air bladder, and air bladder valve are warrantied for 3 years, and the pump for 1 year against defective material and workmanship.

The "air over coil" technology of the Air Dream ® makes a sofa sleeper mattress so comfortable you will want to sleep on it every night. Inflate the cushioning air layer in just 45 seconds with the convenient hand held pump. The mattress deflates for storage in less than 30 seconds. Available in full or queen size, and equipped with a UL approved electric pump that plugs into a standard 110V household outlet.

Full or Queen Size Air Dream ® System Upgrade:	\$800
Replacement Air Dream ® System:	\$1,120

Mattress Sizes	Sizes	Length When Extended
	Queen	60" wide x 75" long x 6" thick
	Full	52" wide x 75" long x 6" thick
	Twin	32" wide x 72" long x 5" thick

CUSHION WARRANTY

Seat Cushions We offer a variety of seat cushion options with varying levels of support. Refer to the style specific pricing list for both the standard seat cushion fill as well as charges for changing the standard fill.

5 Year Warranty

Seat cushion cores are warrantied against abnormal loss of foam resiliency for 5 years. Following this period, our customer service team can quote our dealer pricing should the consumer-owner want to purchase new cushion fills.

Under normal residential use, cushions will soften and conform to the user's shape. "Comfort wrinkles" will begin to appear and will be particularly noticable with larger/longer cushions. This slight and expected softening of the foam and flattening of the fiber and feather components is a natural part of the upholstery maturing process and is not a material or manufacturing defect.

Softening should not be confused with loss of foam resiliency.

Proper maintenance, including frequent seat and back cushion rotation, will provide greater durability and longer life. Reverse (top-to-bottom) and rotate (side-to-side) seat and back cushions often to distribute wear. Fluffing cushions at the same time will keep the fills evenly distributed to minimize wrinkles and maintain the cushion loft and shape. View "Product Care" videos on our web site for more information.

**Back Fill
+ Throw Pillows**

Back Fill: Designed to support and cradle your back. Back fills are either fiber or a blend of fiber and feather/down. These filling materials will soften and conform to the shape of the user. Regular fluffing, just as you would fluff the pillow you sleep on, is necessary to maintain the shape and loft of the back fill.

Throw Pillows: Feather/down fill is standard in all throw pillows and requires frequent fluffing to maintain the loft and shape. Feathers and down may occasionally work their way through the downproof ticking. This is normal and evidence of air properly moving through the pillow.

Although the back fills and throw pillow fills are not covered under warranty, replacements are available at a minimal charge.

FABRIC + LEATHER WARRANTY

Fabric Warranty Fabrics are warrantied only to the extent of the warranty provided to us by our fabric suppliers. We cannot guarantee and will not assume any responsibility for color fastness, wearing qualities, shrinkage, wrinkling, nor stretching of any fabrics.

We cannot be responsible for dye lot variations and other inherent characteristics that are part of a fabric's uniqueness such as shading, knots, and slubs. Some fabrics are washed to achieve a more relaxed appearance and softer feel. Wrinkling, puckering, and shade variances are a natural result of washing and should not be considered defects.

Fabrics will show wear due to friction from use. Pilling, the formation of little balls of fuzz on the surface of the fabric, can occur with normal use. While at the discretion of the fabric supplier, pilling and fading are not considered defects. Any claim will be void when there is evidence of heavy soiling, or if a fabric is improperly cleaned or treated with a chemical fabric treatment.

Leather Warranty

Leathers are warrantied only to the extent of the warranty provided to us by our leather suppliers. We cannot guarantee and will not assume any responsibility for color fastness, shrinkage, wrinkling, nor stretching.

Leather is never uniform. Variations in color shade and depth (light, medium, dark), and grain (smooth, pebbled) will occur from hide to hide and even within the hide.

Our leathers bear the natural characteristics and markings of the hides from which they were made. Environment, climate, feed type, and husbandry all have a direct correlation to the natural characteristics (pore size, stretch marks, "lines" from neck and shoulder wrinkles), and natural markings (brands, and healed scars/scratches from barbed wire and bug bites) you will find within a hide. Inherent in the nature of this raw material and visible through the transparent dyes used on our aniline and semi-aniline leathers, these features are a testament to the authenticity of our leathers and should not be considered a defect. With use, the leather surface will scuff and a beautiful vintage patina will develop.

CUT YARDAGE

Fabric Cut Yardage The minimum order for cut yardage is one yard. Afterwards, you may purchase in 1/2 yard increments. If you want cut yardage shipped somewhere other than your normal delivery address, be sure to include the complete physical address. UPS shipping charge and our UPS handling fee will be added.

Grade	Price Per Yd	Grade	Price Per Yd
7	\$64	22	\$202
8	\$70	23	\$211
9	\$77	24	\$218
10	\$86	25	\$224

NAIL OPTIONS

Nail Trim Nail trim is available on most styles. The placement varies to enhance each style. If you have a specific placement or spacing in mind, enclose a detailed description or drawing with your order. Styles standard with nail trim can be ordered without it at no additional cost, **except for the 5190 series, 617-07, 1465-05, 1465-07, (L)2025, (L)2025-SW and 2250-05(SW)**. Specify "no nails" on your order, if applicable.
Note: Nail trim is not available on the front of sock arms or front and top of track arms.

SEAT CUSHION + BACK FILL OPTIONS

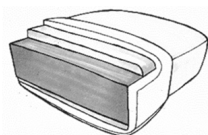

Standard Fill: We offer five seat cushion and three back fill options with varying levels of support. Refer to the individual style in this price list for both the style-specific standard seat/back fill as well as charges for changing the standard seat/back fill.

Slipcovered Ottoman Top Fill: Due to slipcover ottoman construction, optional fill for cushion tops is not available.

Environmental Impact: Committed to environmental stewardship, all foam cushion cores incorporate BioHR (high resiliency - 1.8 minimum density) polyols derived from natural, renewable soy beans. When compared to traditional petroleum based polyols, BioHR requires less non-renewable energy to manufacture, emits less global warming emissions, and reduces the industry consumption of petroleum.

California Requirements: We use flame-retardant-free cushions, foam, and decking that has been tested and approved by CertiPUR-US® to meet standards for content, emissions, and durability to ensure consumer safety and environmental stewardship. Per this new regulation, and effective January 1, 2015, all of our products are now labeled as CA TB117-2013 compliant. Learn more at <http://certipur.us/>

SEAT CUSHION OPTIONS

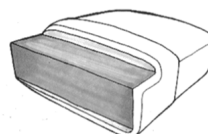

Hallmark Seat Cushion (Medium Firmness)

HR foam core with a soft foam wrap on top and bottom for added comfort, wrapped in polyester fiber, and then encased in a ticking. This cushion will have a tailored look with good recovery.

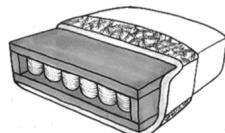

Extra Firm Hallmark Seat Cushion (Very Supportive Feel)

Hallmark seat cushion construction but with a higher compression HR foam core is available upon request as "Extra Firm Hallmark Seat Cushion" at no additional charge.

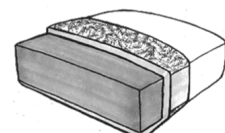

Mayfair Seat Cushion (Soft Feel)

HR foam core is wrapped on all sides in polyester fiber then encased in a down proof ticking. This cushion will have comfort wrinkles due to its softer construction.

Hamilton Spring Down Seat Cushion (Medium Firmness)

Individually wrapped coil springs are enclosed in HR foam. This core unit is then wrapped in polyester fiber, then covered in a blend of polyester fiber, and feathers and down which have been blown into a channeled down proof ticking.

Comfort Down Seat Cushion (Soft Feel)

HR foam core with a soft foam wrap is covered in a blend of 75% polyester fiber, and 25% blend from 10% down-90% feathers which have been blown into a channeled down proof ticking. This cushion will have a soft and casual feel.

Comfort Down Package = Comfort Down Seat Cushion & Comfort Down Back

BACK FILL OPTIONS

Fiber Back: Blown polyester fiber is encased in a channeled ticking.

Extra Full Fiber Back: Additional fill offers additional support.

Comfort Down Back: 25% blend of 10% down-90% feathers is combined with 75% polyester fiber and then sewn into a channeled down proof ticking.

Extra Full Comfort Down Back: Additional fill offers additional support.

Legacy Down Back: 50% down and feathers is combined with 50% polyester fiber and then encased in a channeled down proof ticking.

THROW PILLOW FILL OPTIONS

Legacy Down TP Fill: 5% down and 95% feathers is encased in a down proof ticking. Legacy Down is the standard throw pillow fill for all styles that feature throw pillows as well as all extra pillows ordered.

Fiber Luxe TP Fill: Micro-denier polyester fiber can be provided upon request as a luxurious alternative to down filling. This fine synthetic material is for those who prefer non-animal products or have allergies.

BED SUPPORT + SECTIONAL CONNECTOR ASSEMBLY

Complete Bed Components All king, queen, and twin complete beds include headboard, side rails, and foot rails or foot board. King and queen sizes will also include adjustable metal slats. Hardware for assembly will be included. See diagram below for assembly.

ADJUSTABLE BED SUPPORT ASSEMBLY INSTRUCTIONS

Step 1: Attach tubular leg to horizontal support with 3/8" slotted round head screw

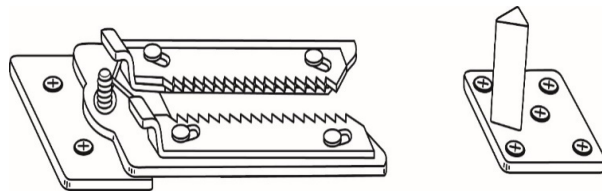

Step 2: Screw the adjustable glide into the tubular leg

Step 3: Extend the two telescoping support slides until the screw tabs are flush with each bed rail and over each support cleat

Step 4: Use #8 screw to attach the support assembly to the support cleats

Step 5: Adjust glide to level the support

SECTIONAL CONNECTOR ASSEMBLY INSTRUCTIONS

Step 1: Place the sectional pieces in their respective positions.

Step 2: Locate the prong and the connector assembly.

Step 3: Rotate the connector assembly so that the connector is facing towards the other piece of the sectional.

Step 4: Move the sectional piece so that the connector is aligned with the prong.

Step 5: Connect the connector assembly with the prong by pushing the sectional pieces together.

Step 6: With another person, go on each side of the sectional and the seat assembly together by pushing the pieces toward each other.

CUSTOM LENGTH

Custom Length **Not all styles can be customized.** Contact Customer Service for custom request approval prior to submitting your order for a final quote.

- *Allow 1-2 weeks in addition to normal lead time for production.
- *Due to customization, these pieces are not subject to return or refund.
- *For sectionals, provide a sketch with dimensions.
- *Custom lengths may impact cushion configurations.
- *Choose the style closest to desired length**
- *Custom items will incur **\$160** charge per piece if cancelled once acknowledged.

Following is a general guideline for custom length charges. Note: Pricing may vary based on manufacturing review.

When adding up to 15" or decreasing any length	Add 35% to total costs
When altering up to 16"-23.99"	Add 40% to total costs
When altering 24" or more	Add 50% to total costs
When cushion configuration changes	*see below*

Example:

Style Cost	\$	<u> </u>
Add Addl Options	\$	<u> </u>
Subtotal	=	<u>Subtotal x 35%, 40%, or 50%</u>
Custom Length Charge	=	<u>Subtotal + Custom Length Charge</u>
Grand Total	\$	<u> </u>

CUSHION CONFIGURATION OPTIONS FOR FABRIC STYLES

Cushion Configuration Options	Change from Standard	Bench	\$384
	Seat and Back Cushion	2 over 2	\$720
	Configuration to:	3 over 3	\$720
		2 over 1	\$720
		3 over 1	\$720
		4 over 4	\$720

CUSHION CONFIGURATION OPTIONS FOR LEATHER STYLES

This will require a custom quote, call customer service.

LOOSE OR SEMI-ATTACHED BACK PILLOW OPTIONS

Loose Back Pillow Option Semi-attached back cushion styles can be ordered with optional loose back cushions for an additional charge of : **\$160** per item

Note: Loose backs cushion styles cannot be ordered as semi-attached.

BATTERY OPTION FOR POWER RECLINERS

Battery Option A rechargeable battery may be purchased for power recliners for **\$288**

Hickory, NC 28602

IT IS OUR POLICY NOT TO RETURN EXCESS COM UNLESS REQUESTED ON THE ORIGINAL PO. IF THERE IS EXCESS AND IT IS REQUESTED TO BE RETURNED AFTER THE COMPLETION OF THE ORDER, IT WILL BE SENT AT A CHARGE.

COM GUIDELINES

Customer's Own Material All styles can be covered in a fabric supplied by the customer. The guidelines listed below apply to all COM orders.

- The purchase order is to have: 1) a description of the COM fabric, 2) a small cutting of the COM fabric, and 3) the completed COM Information Form from page 19.

The COM Information Form is not an order. It is used for information purposes only.

- We do not inspect COM fabrics nor take responsibility for quality, flaws, defects, or accuracy of yardage sent. Service issues regarding styles upholstered with defective COM fabrics, or COM fabric that we have partially cut due to flaws or short yardage are not valid.

We reserve the right to refuse a COM order if we determine that the fabric sent is not a suitable upholstery fabric.

- COM shipments are to be clearly identified and shipped prepaid to:

**COM Department
2829 Hwy 70 SE
Hickory, NC 28602**

It is imperative that COM material be identified with dealer name, style number, tag name, purchase order, etc. We will not be responsible for production delays due to improperly identified fabric.

- Unless specific instructions are provided, COM fabrics will be cut and applied by the factory **at our own discretion** without liability for doing so. We reserve the right to use our best judgment in determining if a fabric is to be cut railroad or regular/up the bolt, which side of the COM fabric is the front or back, and which direction of the COM fabric design is top or bottom.
- Excess COM fabric will not be returned unless requested. If the return request is made after the furniture has shipped, your UPS account number must be provided with shipping instructions. If the excess is less than 1 yard it will not be returned.

COM Yardage Requirements The style-specific COM yardage requirements listed in the price list is for 54" wide fabric with a repeat that is either plain, 2" - 14", or 15" - 27".

For narrow fabric widths, use the following chart for yardage requirements:

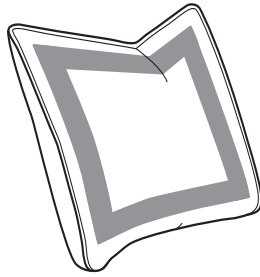

<u>Width</u>	<u>Plain</u>	<u>2"- 14" repeat</u>	<u>15"- 27" repeat</u>	<u>28"- 36" repeat</u>
54"	--	25%	35%	45%
48"	15%	30%	40%	50%
36"	50%	65%	70%	75%
