

TRUSTED SECURITY ADVISORS, LLC

SOLUTIONS & SERVICES

EXPERT SECURITY CONSULTING WITHOUT THE ENTERPRISE PRICE TAG

At **Trusted Security Advisors, LLC**, our mission is to empower organizational leaders to safeguard their digital environments, employees, and reputation through expert cybersecurity consulting. We specialize in providing tailored cybersecurity solutions that include comprehensive IT consulting services, all designed to effectively reduce cyber risks while maintaining highly competitive pricing.

Cybersecurity Advisory Services

Fractional CISO

Gain executive-level cybersecurity leadership without full-time costs. Our Fractional CISO service aligns security strategy with business goals and regulatory needs.

Gap Assessments

Quickly identify security gaps and align with NIST CSF or CIS v8. We deliver actionable insights to elevate your cybersecurity maturity and strategic planning.

Risk Assessments

Understand and prioritize your risks. Our assessments provide clear insights and mitigation strategies to protect assets and support informed decisions.

Vulnerability Management Program Maturity

Advance your vulnerability management program. We assess, prioritize, and remediate risks to improve resilience, compliance, and operational security.

Security Awareness Training Program Management (SAT)

We manage your SAT tools—KnowBe4, Proofpoint, or Hoxhunt—so you don't have to. Improve training outcomes, reduce risk, and free up your team for strategic priorities.

Third Party Risk Management (TPRM)

Client and vendor security questionnaires are growing more complex—and more frequent. From documentation to evidence gathering, we reduce the time and stress of compliance. Let us handle the details so your team can focus on strategic initiatives.

Disaster Recovery Plans (DRP)

Recover fast from disruptions. Our DRPs minimize downtime, protect data, and ensure business continuity with tailored, compliant recovery strategies.

Business Continuity Plans (BCP)

Ensure resilience through crises. Our BCPs maintain operations, reduce losses, and support long-term business stability.

Business Impact Analysis (BIA)

Identify critical processes and dependencies. Our BIA helps prioritize resources and strengthen resilience against disruptions.

Ongoing Maintenance Packages

Stay compliant and secure year-round. We maintain assessments and plans, meeting cyber insurance requirements with minimal effort on your part.
