

**Lead Service Line Inventory Violation Form**

331-764 • November 2024

We, City of Sprague Water System, I.D. 83150V located in Lincoln County, are required to complete and submit a Lead Service Line Inventory (LSLI) to the State and make the inventory publicly accessible. Any lead service lines and certain other lines identified from LSLI will be required to be replaced to reduce lead exposure in drinking water. We did not complete our required LSLI, make it publicly accessible, and submit it to the State by the deadline of October 16, 2024. We therefore are not able to provide you with information on the service line materials at your service address.

At this time:

- ☐ We will work to complete an LSLI and submit it to the State.
- ☐ Once completed, we will make the LSLI publicly available upon request.
- ☐ We will provide you with information on health effects of lead and steps you can take to reduce your exposure to lead (see reverse side for details).
