To Whom It May Concern:

Re: Centre For Halal Accreditation, Research & Training (CHART)

The Muslim Council of Peel (MCP) is very pleased to recognize the Centre For Halal Accreditation, Research & Training (CHART). There is a need to ensure halal observant consumers have trust in halal labelled products. This initiative will insha Allah protect halal consumers and the halal industry in Canada.

A neutral and nonprofit institution that safeguards halal consumers and supports halal production is long overdue in the expanding Canadian market responding to halal demand. Given the many frauds taking place around the country, such an organization is necessary to protect ethical practice. This centre will dedicate its resources to provide accreditation to interested Halal certifiers and act as a reference for all Halal & Haram matters including, but not limited to, food and drinks.

We pray for the success of this initiative that is expected to best serve our Muslim communities in Peel Region and all of Canada.

With best regards,

Rabia Khedr

Executive Director
