To Whom It May Concern:

Re: Centre for Halal Accreditation, Research & Training (CHART)

The Ontario Muslim Chamber of Commerce (OMCC) is pleased to recognize the Centre for Halal Accreditation, Research & Training (CHART).

Our mission at OMCC is to bring together Muslim businesses in Ontario to grow and contribute to the development of a strong economy. The need to ensure halal observant consumers and to have complete trust in halal labeled products is a big part of elevating business standards and development. This initiative of CHART will inshaa Allah create that trust, protect consumers, and the halal industry in Canada.

It is perfect timing for Muslims in Canada to see a neutral and non-profit institution that safeguards halal consumers, protects ethical practice, and supports halal production.

CHART will provide accreditation to interested Halal Certifiers and act as a reference for all halal matters including, but not limited to, food and drinks. The OMCC team is very interested to work with CHART in any way we can to improve business conditions and best serve the Muslim communities in Canada

With best regards,

Hossam Khedr
