OPERATION CHRISTMAS CHILD

Countryside Feed is participating in Operation Christmas Child again this year and we would love for you to be involved by either donating, spreading the word, or buying a raffle ticket for one of our many prizes that will soon be announced!

Operation Christmas Child is the story of the Good Samaritan (Luke 10:30-37) gives a clear picture of God's desire for us to help those in desperate need wherever we find them. After describing how the Samaritan rescued a hurting man whom others had passed by, Jesus told His hearers, "Go and do likewise." For over 50 years, Samaritan's Purse has done our utmost to follow Christ's command by going to the aid of the world's poor, sick, and suffering. We are an effective means of reaching hurting people in countries around the world with food, medicine, and other assistance in the Name of Jesus Christ. This, in turn, earns us a hearing for the Gospel, the Good News of eternal life through Jesus Christ.

Operation Christmas Child is an opportunity to send a gift to a child that has never received one, while spreading the word of God. Your gift could be delivered by a makeshift raft, donkey, camel, boat, truck, plane, or by foot to over 170 countries and territories across the world.

We are accepting supplies or donations made out to Countryside Feed before the national collection week of Nov. 18th – Nov. 25th. If you are wanting to learn more, the video link below gives a great summary of what Operation Christmas Child is all about.

This is an amazing cause and a great opportunity to put a smile on a lot of little faces around the world.

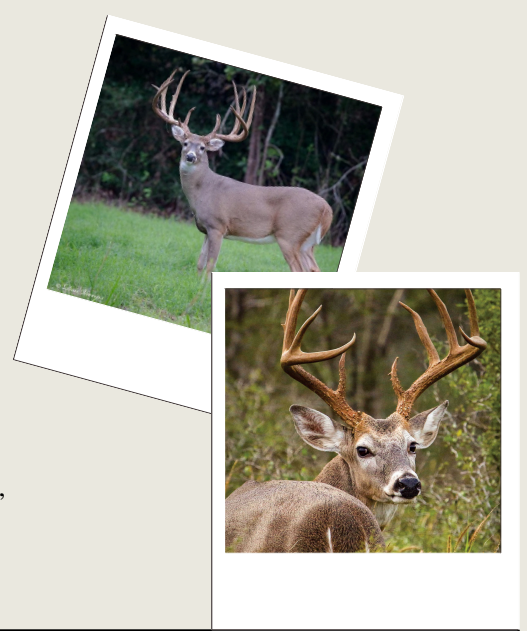

Thank you for your consideration,
The Countryside Feed Team

TenX™ Deer Formula

Specially formulated TenX™ Deer Formula by Countryside Feed is the only deer feed you need. TenX™ can be fed all year around keeping deer where you want them. Our formula is fully balanced promoting general herd health and full genetic potential for body mass and antler growth. The ingredients are tested for guaranteed quality of beans and corn and it is water resistant. TenX™ can stand up to moisture on the ground and in feeders.

TenX™ is a “Gut Health Blend” which includes prebiotics, probiotics, yeast culture, digestive enzymes and buffers. Our formula will improve digestion of both supplemental feeds and forages. The chelated trace minerals assist in reproductive efficiency, immune system support, promotes longevity and general health of deer herd wide. By-pass proteins result in bigger deer, not just bigger racks, and deer love it. Give our sales team a call for additional information or if you’re ready to place an order. **Hillsboro - 620-947-3111 or Seneca - 785-336-6777.**

Employee Anniversaries

Make sure to follow our Facebook page each month as Formulation Specialist, Tara Bina offers Tip Tuesday.
