

**TOTAL
FINISHING**

Call Us At: (844) 898-1082

Features:

- A versatile, production-grade setup built by Binks featuring an IR cure oven from BGK
- Can be used for both liquid and powder coating applications
- An ideal solution for a wide range of testing and development needs
- Parts loaded onto the rotating chain can be turned during application and curing phases, closely replicating actual line conditions for even the most complex part geometries
- Adjustable conveyor speeds for fine-tuned flash times, cure durations, and overall throughput
- This system ensures consistent, repeatable results that mirror real production processes
