

Call Us At: (844) 898-1082

Features:

- Electronic mixing for high-precision ratios and homogeneity
- For complex 2k or 3k applications
- Fully automatic AIS dispensing system
- Integration with peripheral devices (robots, conveyors, automated lines)
- Stroke sensor for flow measurement without material contact

Specifications:

- Mixing Ratio: 0.1:1 up to 50:1
- Mixing accuracy: $\pm 1\%$
- Material Pressure: 15 – 3626 PSI
- Material Inlet: M-G $\frac{1}{4}$ " 60° Taper
- Material Outlet: M- $\frac{1}{4}$ " NPS, 60° Taper
- Component A: 1-5
- Component B: 1-2
- Component C: 0-1
