

**VB-060**

Disc-Type Spring-Loaded Vacuum Breaker  
(with optional air valve addition)  
for Water Supply Systems

8"/200mm ,10"/250mm, 12"/ 300mm  
14" / 350mm, 16" / 400mm,  
20" / 500mm, 24" / 600mm

**VB-060**

Disc-Type Spring-Loaded Vacuum Breaker  
(with optional air valve addition)  
for Wastewater Systems

8"/200mm ,10"/250mm, 12"/ 300mm  
14" / 350mm, 16" / 400mm,  
20" / 500mm, 24" / 600mm

*Air Valves for Water Supply & Wastewater Systems*

A.R.I. Flow Control Accessories Ltd. provides expertise in the planning, development and implementation of advanced solutions for system protection from transient pressures, entrapped air in pipelines and unmeasured non-revenue water.

These solutions are accomplished with the design, development and manufacture of valves and accessories for fluid piping systems as well as the resources required to execute an in-depth analysis of these systems for implementing proper air valve sizing and location.

A.R.I., while addressing the ever changing needs of the market place, pledges to uphold

- A high standard of quality
- A commitment to service and training
- Diligence in innovation and development
- Design of long-lasting products with minimal maintenance
