How Much is it?

Membership in the ASM Program is **\$19.99 per month** (or \$200.00 if paid annually). No contracts. Cancel at any time.

***This pricing applies to clients only.**

What is HomeVault Title Monitoring service?

How the Scam Works...

Internet thieves find homes with equity. Then they file a fraudulent deed making it look like you sold your home to them. You will NOT receive notice that this is occurring. They take a mortgage out on your home through an online bank, pocket the money, and default on the loan. You won't find out until the bank forecloses on your home. By then, it may be too late.

How does the HomeVault Service prevent this?

The HomeVault Title Monitoring Service conducts a limited title search on your home once EVERY month (more often and more thorough than our competitors). If a thief has fraudulently deeded your home, you'll be notified and will have time to fix the deed BEFORE any foreclosure action is filed against your home.
