

Global Innovation Milestone 2026

WONDER[®] vigor

Radical Fat Reduction [RF+NMS]

Wonder Vigor is powered by THERMODEXIA[®], our exclusive patented technology - the only one of its kind worldwide. It pairs deep, controlled thermogenesis with helicoidal muscle contractions to strengthen muscle and support targeted fat reduction, all through a comfortable, non-invasive experience.

For clinics seeking differentiation, efficiency, and exceptional patient outcomes, Wonder Vigor offers a truly unique solution not available from any other provider.

Wonder Vigor enhances muscular performance in the treated area, helps reduce abdominal inflammation, and supports faster, more visible toning and slimming

Patient & Clinic Benefits

- Localized Fat Reduction
- Helicoidal Muscle Activation
- Treatment of Inflammation
- Non-Invasive Technology

Modelo Wonder Vigor ONE

THERMODEXIA®

A PATENTED BIOENERGETIC TECHNOLOGY

Thermodexia is a patented, proprietary bioenergetic neuromuscular technology exclusive to Wonder systems. It couples deep, uniform thermogenesis with helicoidal neuromuscular contractions to activate muscle tissue, elevate local metabolic flux, and support selective adipocyte reduction — all achieved through a non-invasive, physiology-driven process.

100% Operator-Independent Treatment

Technical Specifications

- ▶ Radiofrequency Frequency: 300 kHz
- ▶ Pulse Width Up To 1400 μ s
- ▶ 6 Muscle Groups Simultaneously
- ▶ Output Power: 60 W
- ▶ Electrodes Surface Area: 25 / 35 cm²
- ▶ Non Assisted Procedure: Tablet Controlled

Under International Patent Pct/Es2025/070618
