Office Use,

Date Received _____

Received By: _____

County: Grimes

Permit # _____

Type: Conv / comm

I have been advised and understand that the system to be installed is not warrantied against water surfacing.

KB Septic Systems will not be held liable for water standing or wetness, as we have no control over the weather or water usage.

KB Septic Systems is NOT responsible for the following:

- Dirt Settling around tanks or trenches. You can fill it in with sand purchased at any home improvement store.
- Damage to buried underground utilities or sprinkler lines. Please have them clearly marked, & call 811 to locate and mark other lines.

This will be the owners responsibility.

KB Septic Systems will apply additional charges for the following:

- If there is a deep set and extra risers are needed, there will be a charge per riser.
- If we run into rock while digging and CANNOT break it up easily with the backhoe.
- If the customer uses the drains before the septic is connected and we have to work in unsanitary conditions.

DISCLAIMER

Permit # _____, issued this _____ (Date) is an "Authorization to Construct" a septic system only and is based on information supplied by myself and the Registered Sanitarian or Professional Engineer I employed. This information to the best of my knowledge is true and accurate. I understand that a "Notice of Approval" for the septic system will be issued ONLY after all criteria set up by TCEQ and Grimes County regarding on-site sewage facilities have been met. I understand that failure to comply with TCEQ or County Rules regarding on-site sewage facilities will result in no issuance of the "Notice of Approval".

EXISTING SYSTEMS: I understand that when upgrading or improving any "existing system", all components of the existing system MUST be brought up to current codes or standards. I understand that in order to identify where the tanks and field lines of an existing septic system are located, holes may be dug and/or probing the area on my property may be done. If water lines, gas lines and any underground utilities are not marked, they could be damaged during the course of inspection. However, Grimes County or its representatives will not be responsible for inadvertent damages that may be done.

NEW INSTALLED SYSTEM: I understand that an inspection by Grimes County must be completed and approval given prior to back fill of any newly installed or add on modifications to existing systems. Inspections may be scheduled by contacting the Grimes County Environmental Office with a minimum of a 24-hour notice.

I hereby grant permission for the Grimes County Environmental Department personnel to enter upon the property described in the Permit for the purpose of inspecting the septic system.

I understand that the performance of the septic system will depend on many factors including correct sizing, maintenance, water usage, amount of rainfall received on the property, etc. Grimes County or its employees will not be responsible for malfunctioning systems.
