During the Summer season, some events may be affected due to high heat and smoke. Outdoor events may be cancelled due to heat exceeding 90+ due to the risk of heat exhaustion. While Good-2-Go has protocols in place to minimalize the likelihood of heat exhaustion, the risk is still prevalent and steps must be taken to protect all members and staff. As well as heat, smoke from forest fires in the area can also present risks to ones health while performing strenuous activities. If air quality is above 100, Good-2-Go will encourage the wearing of masks to minimalize smoke inhalation. If the air quality exceeds 150+ the event will be cancelled all together. If weather poses a risk, ACE will attempt to substitute it with an indoor event. However if a substitute can not be found, the event will have to be rescheduled or cancelled. Good-2-Go values the safety of all members and staff; while steps are taken to avoid cancellation, the possibility is still there.
