9TH ANNUAL PRODUCTION SALE

JANUARY 25, 2025 | 1:00PM

AT THE RANCH, UNION CENTER, SD

Rounds & Angus

Welcome to the Annual Rounds Angus Ranch Production Sale.

The cows did a fine job raising calves again this year and we are happy with our sire selection. We hope you like them as well. We put quite a few miles on every year looking at sires, visiting ranches with some calves of the sires, and checking out daughters of the bulls young and old. Gas is a lot cheaper than a breeding mistake. It makes a difference. We run a low maintenance cow herd with them getting all the grass and hay they want with some iodized salt out for a supplement. We demand quite a bit from them for what they get and they very rarely get a second chance. They have been culled hard for years, so bags, feet, temperament, body condition, and mothering ability on these cows are pretty darn good. These bulls should help pass this along. You are more than welcome to stop in any time and take a look for yourself. If you have any questions call Todd at 605-347-0890.

Big Country is a 6.1 frame bull that was a no brainer to use after seeing him in person. He stamps his calves with allot of middle and performance. His first crop of calves here ratioed 105 at weaning time on a wide variety of different sired cows. We used a lot of him this last spring and plan to use him for a long, long time.

SAV Renown is a bull we absolutely cant get enough cows out of , as it shows , a lot of the mothers of these bulls are renown. He makes excellent females that have good feet, udders, dispositions, keep easy, and make outstanding mothers. I could go on and on about him, does a lot of things right and we will continue to use him as long as we can.

Millars Duke was a sale topper as well for Millar Angus, really like the calves from this bull, used him on heifers and got by really well. A lot of growth and vigor in the calves with super dispositions.

Black Mass is a bull I wish I would have started using 2 or 3 years sooner. I'm a big fan of the Windy 141's, 79's, and mass. He's not an epd numbers bull, but don't tell his calves that.

A scenic photograph of a winter landscape. The foreground shows a snow-covered hillside with some dry grass. In the middle ground, there is a small, partially frozen pond. The background features rolling hills covered in snow under a cloudy sky with a bright light source, possibly the sun, breaking through the clouds.
