

This is a list of symbolic MESONS:

MESONS are unenlightened men & women symbolizing unstable subatomic particles composed of one QUARK or one school of thought and one way of life referring to an ANTIQUARK.

They are part of the HUMAN FAMILY symbolizing the hadron particle family – particles made of quarks or one school of thought. The other members of the hadron / Human family are the BARYONS which symbolize THE ENLIGHTENED ONES – subatomic particles composed of three quarks (degrees) or schools of thought.

The main difference between MESONS and BARYONS is that mesons have integer spin which is symbolic to a MENTAL TRANSFORMATION (thus are BOSONS) while BARYONS are FERMIONS (half-integer spin) is symbolic to a COSMIC CONSCIOUSNESS or a HIGHER LEARNING.

Because MESONS are BOSONS, the Pauli exclusion principle (LIMITED THINKING) does not apply to them. Because of this, they can act as force symbolic to RAISING SPIRITUAL FREQUENCIES or mediating particles on short distances, and thus play a part in processes of ILLUMINATION with such dedication as that of a nuclear interaction.
