Frame Material: Aluminum Alloy
Power Supply: Lithium Battery
Battery Capacity: 7/10.4/17.5AH
Battery Position: Internal battery
Motor Position: Mid-set motor/Rear
Front fork: Spring/Oil fork/Gas fork
Braking System: Line/Disc Brake
Voltage: 36V/48V
Display: LED/LCD
Charging Time: 4H
Range per Power: 60-200KM
Tire Width: 26/27.5/29/700C
Max Speed: 35Km/h
Torque: 60-130Nm
Gears: 7S/9S/10S/11S/21S
Wheel Size: 26/27.5/29

Frame Material: Aluminum Alloy
Power Supply: Lithium Battery
Battery Capacity: 7/10.4/13/17AH
Battery Position: Internal battery
Motor Position: Mid-set motor/Rear
Front fork: Spring/Oil fork/Gas fork
Braking System: Line/Disc Brake
Tire Width: 26*175/26*195
Voltage: 36V/48V
Display: LED/LCD
Charging Time: 4H
Range per Power: 60-200KM
Max Speed: 35Km/h
Torque: 60-130Nm
Gears: 7S/9S/10S/11S/21S
Wheel Size: 26/27.5/29

EZ RIDE

Easy to Ride

With more power, cargo capacity, and range than a traditional bicycle, ebikes are changing the way people travel. At EZride, we believe ebikes have a similar capacity to revolutionize the way people and goods move in the business world. Compared to traditional cargo vehicles, ebikes are inexpensive to own and operate and are vastly more efficient, nimble, and green.

About EZride
