

Asia Business School

EMPOWERING LEADERS

INTRODUCTION

Asia Business School (ABS) is a private executive platform that prepares companies for capital, structures growth strategies, and connects business leaders with curated investors across Asia and beyond.

We work with CEOs, founders, and family businesses to transform their companies into **investment-ready, scalable, and strategically positioned enterprises**, enabling them to access the right capital and accelerate sustainable growth.

OUR TEAM

**Professor Dato'
Dr. Azmi Mohd Lila**

William Du

BUSINESS FOCUSED

Unlike traditional academic institutions, ABS focuses on execution, and it's designed to bridge the gap between businesses and investment by enabling companies to:

- Strengthen financial and strategic positioning.
- Navigate capital structuring (debt, equity, joint ventures).
- Access curated funding opportunities through a trusted investor network.

Our platform integrates **strategic advisory, executive education, AI-driven intelligence, and private investor networks**, creating a seamless pathway from business readiness to capital deployment.

Results: Funding, Scaling, Exits, Leadership Transformation.

CONNECT + COLLABORATE + CAPITALISE

We are actively engaging a select group of investors, strategic partners, and collaborators to participate in a curated ecosystem that combines executive education, strategic advisory, and capital access. This creates a pipeline of investment-ready opportunities grounded in both capability and credibility.

We welcome collaboration with:

- **Investors** seeking access to well-prepared, high-quality opportunities.
- **Strategic partners** looking to co-develop and scale education businesses.
- **Advisors & institutions** aligned with leadership development and deal execution.

Our model integrates education with execution, ensuring that companies are not only informed, but truly ready for capital.
