619FUTSAL ACADEMY MISSION

Focused On Fun, Development & Quality

619Futsal is focused on bringing youth players a fun, exciting and safe place to explore their talents to become better soccer players. We have been focused on the development of our local youth soccer player through our leagues, camps, clinics and now as a 619Futsal Academy.

619Futsal is committed to maintaining its independence and objectivity in the formation of our Academy teams. We are NOT a club and have no soccer club affiliation. Although we utilize the support and cooperation of soccer coaches from many neighboring soccer programs, we have a strict “no recruiting policy.” 619Futsal wants to produce a positive environment where each player can be the best.

In addition, our independence and objectivity are reflected in the fact that we provide equal and an unbiased opportunity for all players in our “open I.D process.”

619FUTSAL ACADEMY HISTORY

The Leader Of Futsal In San Diego County

619Futsal was established in 2011 and is the largest futsal league in San Diego. Drawing players from all regions of the County, 619Futsal started the futsal revolution in Southern California and continues to be the leader of the sport in the region.

We provide a forum for players to learn the game of futsal in a non-competitive environment. Our focus is on player development, skills, and teamwork; not trophies!

During the past seven years:

- Our leagues have averaged 200 teams a year
- Over 2,000 players participate in our leagues annually
- Over 100 players have been to the Regional I.D. Camp
- Have hosted several camps with varying attendance
- Our tournament featured nearly 60 teams
- Over 500 people support the players on a weekly basis

In June 2018, 619Futsal was given USYF Academy status and is the only USYF Sanctioned Futsal Academy in Southern California.

In the years to come, 619Futsal will continue to provide young futsal players with quality coaching and innovative programming to help them reach their soccer goals.

USYF ACADEMY PROGRAM

A New Era In Youth Player Development

A new era for Futsal in the USA began in the Spring of 2018 as US Youth Futsal (USYF) announced the launch of its new Academy program.

The US Youth Futsal Academy program will powerfully impact and improve youth player development in the United States.

"We are thrilled to launch the US Youth Futsal Academy," said Jon Parry, Executive Director of US Youth Futsal. "We believe this is an important step towards developing world-class players in America. We are proud that many of the country's top former futsal national team players are now USYF Academy Directors."

Setting the standard for elite futsal training and competition in the USA, US Youth Futsal's nationwide Academy program will improve player development by providing high quality and consistent futsal training environments, meaningful futsal competition, and coaching education.

"The goal is to produce players of exceptional ability in both soccer and futsal," said Joe Farrell, USYF Academy Executive Board and Executive Director & Co-Founder, FutsalRVA. "The USYF Academy is designed for players who want to participate in high-level technical and tactical futsal training and competition. The Academy structure will complement - not compete with - a player's club training in order to optimize schedules and maximize development."

The Futsal Academy offers players a unique opportunity to develop and compete in a year-round futsal centric environment alongside other dedicated and skilled players from a variety of youth soccer clubs.

"Futsal is paramount for player development in the USA," said Greg Simmonds, USYF Academy Executive Board and President, FutsalRVA. "The USYF Academy Program will provide environments where players are afforded opportunities to play and receive exposure on local, regional and national platforms."

BENEFITS OF FUTSAL

A Training Program For Improvement

Although Futsal is very much a game in its own right, there are also a number of benefits for youth soccer players by encouraging them to play Futsal as part of a balanced training program to improve their overall technical development. The game of Futsal creates an environment that allows young people to simulate and develop many skills and proficiencies that are transferable to the 11-a-side game.

The nature of Futsal with the smaller confines of the pitch that makes it harder to find space, the line markings that prevents easy escape from tight situations (such as in traditional 5-a-side where players can play the ball off the wall), and the smaller heavier ball which supports closer ball control and manipulation supports the technical development of young players in a multitude of ways.

Research indicates that individual's playing Futsal receive the ball six times more often than they would do when they are playing 11-a-side football, allowing players to perform more individual techniques such as passes, controls, fakes, feints, dribbles and runs with the ball (Liverpool John Moores University, 2001). As well as touching the ball more often, players will often receive the ball under pressure from opponents developing their confidence on the ball particularly in pressurized environments.

Futsal as a game naturally brings players into regular one-on-one situations with their opponent, encouraging players into quick decision making as to how they overcome these scenarios; this could be through beating the opponent with a skill, or through clever passing to a teammate. But one of the core attributes Futsal teaches young players is the importance of ball retention due to the threat of an immediate counterattack.

Confidence on the ball, receiving a pass under pressure, decision making in 1v1 situations, and ball retention are all important fundamental skills that we look to develop in young football players that are practiced regularly within a game environment in Futsal.

BENEFITS OF FUTSAL

Futsal Emphasizes On Skill & Technique

Futsal also supports young player development in other ways. The speed and fluidity of the game supports players in understanding and improving their skills in the transition (counterattacking) phase.

In Futsal, teams are often either defending a counter-attack or in the process of launching one after breaking down their opponents. This is recognized in modern football as a vital component for young players to understand and apply. The ebb and flow of the game also results in all players being required to feel comfortable in both defending and attacking situations.

Due to the limited space on a Futsal court, the game intrinsically encourages movement and rotation from players as well as a sense of innovation and creativity to unlock defenses and to create some space for yourself or teammates. In many ways, it replicates what is required from attacking midfielders and forwards in the 11-a-side game when trying to break through opposition in and around the 18-yard box.

The emphasis in Futsal is developing skill and technique over physicality, and this is particularly reinforced by the 5-foul rule (committing 6 fouls results in a penalty). At the same time, Futsal is also fun for young players who get to touch the ball with greater frequency in a variety of different positions.

The fact it is played indoors means that it is a perfect alternative in the winter months when outdoor matches are regularly canceled due to inclement weather.

Futsal is by no means the magic cure for developing a more technically competent football player, but as illustrated above Futsal can support and play an important role in improving the technical qualities of the future generation of 11-a-side players.

Influenced By The World's Best Players

Danny was influenced by an interview with the great Pele when he was five years old. In the interview, Pele said to the audience, that Brazilian players are known for their wonderful skills and trickery with the ball. Then a video followed with Brazilian players displaying their crafty moves. From that point on, he spent countless hours every week, month and years in his backyard, practicing those same skills and 1v1 moves.

He teaches his players ball mastery, which features ball possession, defensive focus and attacking creativity style of play. Danny's players are recognized as creative, skillful, technical, entertaining players. His teams have won local leagues, regional leagues, local and regional tournaments. He has coached in four U.S. National Futsal Championships.

Learn Premier Technical & Tactical Skills

The 619Futsal Academy is a premier futsal development program that offers players a unique opportunity to train and compete with players from other soccer clubs that are at the same skill level.

Our program is designed to complement, not compete with a player's regular soccer training with their own clubs. The 619Futsal Academy is for players looking to participate in technical and tactical futsal training sessions, competitive league play, as well as regional and national level tournaments.

619Futsal players will focus on technique, tactical awareness and pinpoint passing which demands quick reflexes and fast thinking.

Participants of the 619Futsal Academy are playing for club academies and graduating to the National level in both soccer and futsal.

- Approximately 30 training sessions per year with qualified staff
- Three 90-minute training sessions a month
- Academy Regional Teams 2000-2008 Boys and Girls
- Specialized goalkeeping training
- All players will participate in the 619 Futsal Winter/Spring (included in fees)
- All Players will compete in the USYF Western Regional Tournament (included in fees)
- Opportunity for participation in Regional & National ID Camps

The Competitive Phase Begins

619Futsal Junior Academy was formed as the second step in our curriculum to help develop the Southern California youth soccer player. The Junior Academy program will continue to stress touches on the ball in a safe, fun environment and to continue promoting the love of the game of soccer.

The difference of JRA is that we added a competitive component to the U10 teams as they will play in friendlies against other Southern California futsal clubs, USYF Regional Championships held in San Diego and other similar tournaments that are included in the Academy program.

The 619Futsal Junior Academy will have all the benefits of our academy programs except trainings will be twice a month instead of three times a month.

- Approximately 20 training sessions per year with qualified staff
- Two 90-minute training sessions per month on Sundays for 10 months
- Specialized goalkeeping training
- All players will participate in the 619 Futsal Winter/Spring (included in fees)
- Opportunity for participation in Regional and National ID Camps

The First Step To Achieving Soccer Success

As you know, Futsal is a great skill developer as it demands quick reflexes, fast thinking, and pin-point passing. The small, heavier futsal ball requires players to hone their ball-striking and dribbling technique. Great soccer superstars such as Pele, Zico, Ronaldo, Messi, Kaka, and Katia grew up playing the game and credit Futsal with developing their skills.

619Futsal Developmental Academy is very excited to continue to enhance our players' technical proficiency, tactical understanding in small group settings, decision making in a fast-paced environment, and ability to make quick key adjustments throughout the course of a game.

619Futsal Developmental Academy (619DA) was formed to introduce our local youth soccer players the opportunity to gain an accelerated soccer foundation and technical base at the ages of 6-8 years old. The 619DA is the first step of our futsal curriculum that focus on touches on the ball in a safe, fun environment that promotes loving the game of soccer.

Developmental Academy players always have a ball at their feet meaning more touches, more experience, and more fun!

619Futsal Developmental Academy is open to ANY/ALL players and teams, regardless of their club affiliation, or level of play.

- Approximately 20 training sessions per year with qualified staff
- Two 75-minute training sessions per month on Fridays for 10 months
- Developmental Academy Regional Teams U8 Boys and Girls
