Brothers, we are in need of your email address, home address, cell number and raised date. We will also capture this information in our own Bee Hive Lodge database. Contact Bro. Mark Pinkney @ 301-123-4567 for additional information.

Big Rocks

For Bee Hive #66, our Big Rock for 2020 was getting the water line turned on. The Big Rocks in our lives represent the things that have the highest rate of return on time vested that fuel our goals. Question: What is your Big Rock for 2021. What absolutely, fundamentally have to get done first, that is aligned with a goal? Loose weight? Pay off debt? Go back to school? What is your Big Rock? Time to plan and be strategic.

COVID-19 ...update

We have experienced a great deal of change in 2020, the year of vision. Please use this time to focus on what really matters and what is most important. Here are some things to consider.

- God is needed even the more in our personal and professional lives.
- Our family members need us to be there for them. Even if it's with a word of encouragement.
- When going to and from, please remember to wear your mask and practice social distancing. We want you and your family healthy.
- When entering the lodge, keep your mask on at all times. We are our brothers keeper.
- Due to the pandemic, our monthly meetings (the 3rd Monday of every month @ 7pm) are virtual. We want you to participate. You can join virtually or you can simply call in on your cell phone. Contact Bro. John Countryman @ 301-123-4557 for more information.

feel good videos produced by Bee-Hive Lodge #66. Some of the videos are narrated. Check them out. Be inspired & motivated. Share your feedback. We want to hear from you. Don't see a picture or video of yourself? Make sure you are at the next event. Will be sure to snap a photo and/or video of you!

Brothers,

I want to thank each and every one of you for your diligence during 2020. We had some obstacles to overcome with the COVID-19 Pandemic.

Some of us buried love ones including siblings, spouses & grandchildren. Some of us got sick and had to shelter down ourselves. But through it all, we were able to be there for each other. We were able to call, text & email each other. We were still able to support each other and our communities. God is faithful.

Now that 2020 is behind us, and the country is making some progress with managing COVID-19, I want to encourage you in your heart, mind and spirit to continue letting your light shine. We still have some dark days ahead of us, but darkness cannot cover or consume the light. Stay encouraged. Let me know what you need. We are here for our brothers just as much as we are here for our communities. Together, we will accomplish and overcome anything!

In closing, I want to remind you, God is faithful & just. He sees us and knows our needs. We are traveling this road with Him, hand in hand, in faith.

I want to personally wish you and your loved ones a very Happy New Year full of God's grace & mercy.

In light,

SW Davis
