HOW IT WORKS?

1. Data Preparation: Set up a simple job that runs regularly to pull and organize data from your database(s).
2. Use our API to send the organized data to our server. Once set up, Cerebro Intelligence will handle the rest, providing you with custom reports, dashboards, and alert systems with just a few clicks.

CEREBRO

A SMART SOLUTION BY INTECH

• Elements

Reports, Dashboards & Alerts are the main elements. Other elements include Datasets, Data Sources, Expressions, Users Groups & Notifications.

• Dynamic Filtering

Easily drill down into data to find exactly what you need.

• Live Reports

Monitor real-time data and trends as they happen.

COPIER

CEREBRO

A SMART SOLUTION BY INTECH

COPIER

CEREBRO 360

Data Copier is the solution for transferring data between databases. We can easily create and manage jobs to copy from a source database to a destination database.

AI ASSISTANT

NEMO AI

AI ASSISTANT

NEMO AI

NEMO AI is designed to provide advanced AI solutions for various industries, leveraging machine learning and AI technologies to solve specific business problems.

CUSTOM AI SOLUTIONS

Tailored AI for diverse business sectors.

INDUSTRY-SPECIFIC APPLICATIONS

Specialized tools for finance, healthcare, and more.

AI INTEGRATION

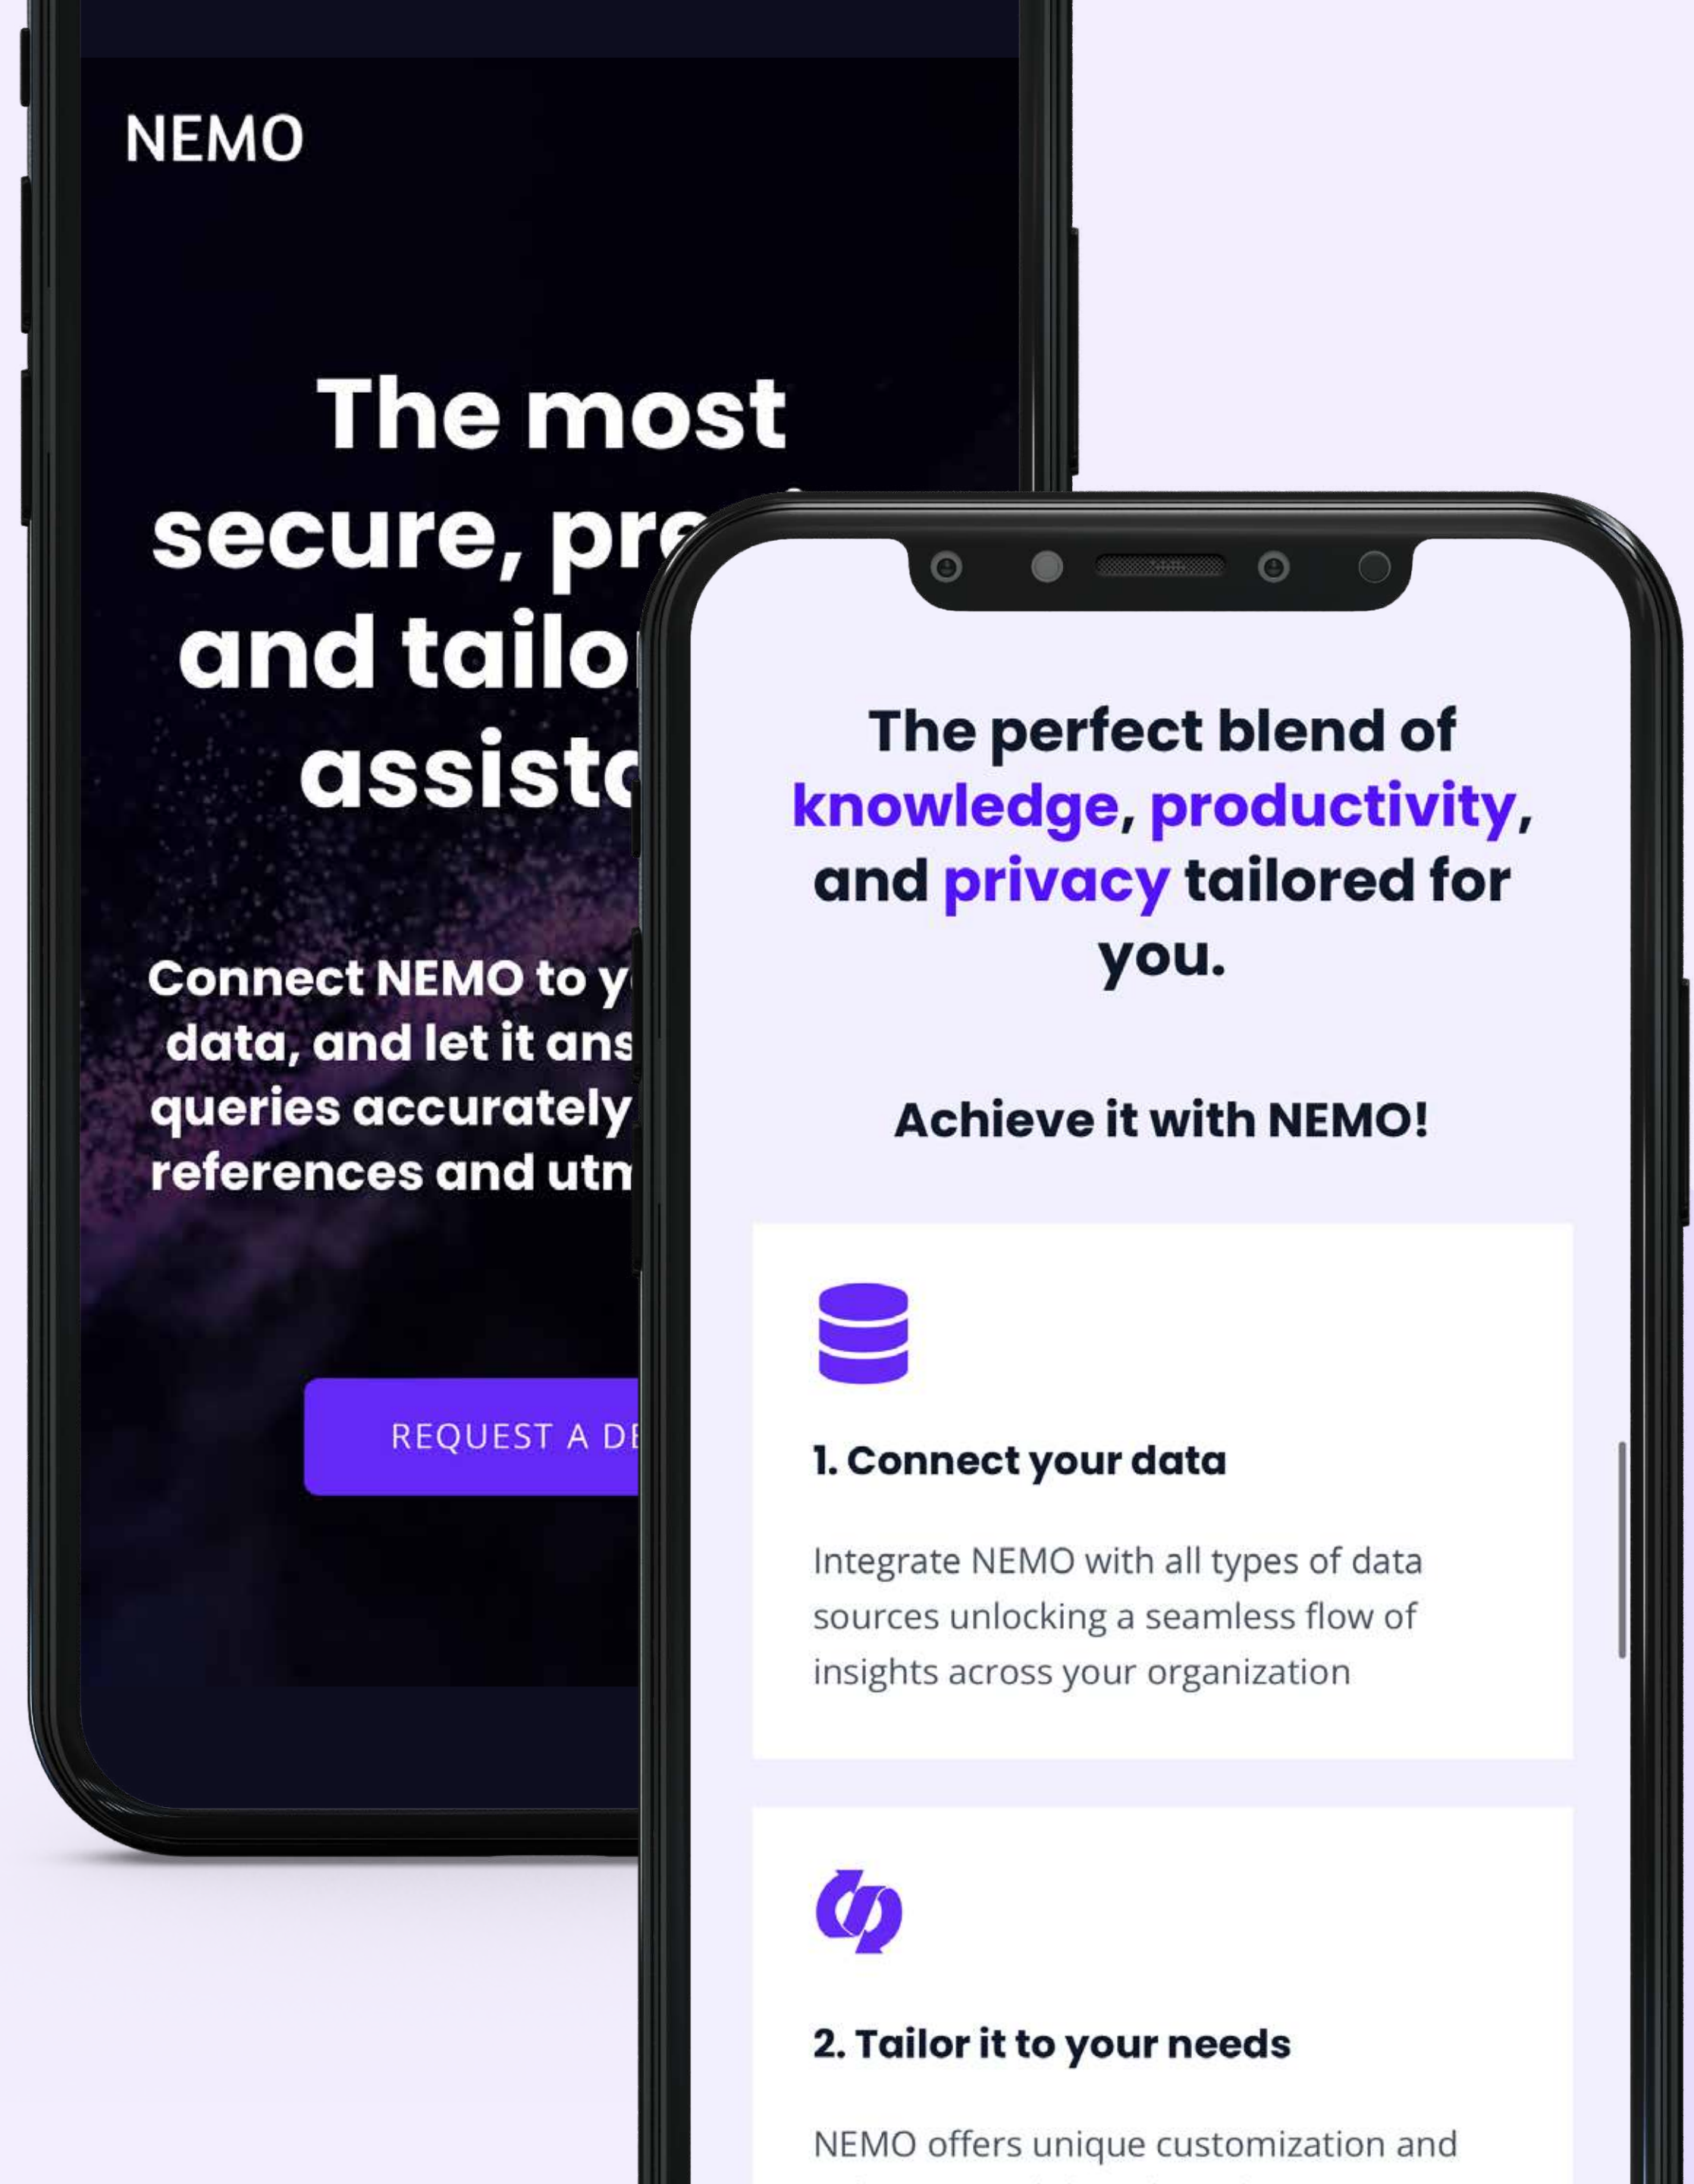

Seamless integration with existing business systems.

DATA ANALYTICS

Advanced features for data-driven decisions.

USER-FRIENDLY INTERFACE

Easy-to-use tools requiring no deep technical expertise.

ONLINE SHOPPING

eCOMMERCE

ONLINE SHOPPING

eCOMMERCE

BlooomCommerce has powerful integral functionality that covers 100% of business needs of eCommerce store owners. BlooomCommerce combines all the robust functionality for efficient B2C, B2B, B2B2C and D2C sales locally and globally.

The screenshot shows a desktop view of an eCommerce website. At the top, there is a yellow navigation bar with the 'TOYS 4 LESS' logo, a search bar, and links for 'Account' and 'Wishlist'. Below this is a blue header with 'All Categories' and 'SALE Home Catalog Brands'. The main content area is titled 'Intex Airbeds' and displays a grid of five product listings. Each listing includes an image of the product box, a title, dimensions, price, and an 'Add to cart' button. The third product, 'Intex Dura Beam Double Mattress', is marked as 'Sold out'. A 'VIEW ALL' button is located at the bottom of the grid.

Product Name	Price	Status
Intex Air mattress (Assorted - 88x157x18cm)	\$29.99 USD	Available
Intex Camping Mat (67 X 184 X 17cm)	\$17.99 USD	Available
Intex Dura Beam Double Mattress (152cm x 203cm x 25cm)	\$37.99 USD	Sold out
Intex Dura Beam Single High Airbed (99 x 25 x 191cm)	\$29.99 USD	Available
Intex Dura Beam (137x191x25cm)	\$38.00 USD	Available

The screenshot shows a mobile view of an eCommerce website for 'Golden Cup Factory'. The header includes the company name in Arabic and English, along with navigation icons for search, account, cart, and menu. The main content features a promotional banner for 'HOREGA 2024' in Riyadh, Saudi Arabia, from November 25-27. Below the banner, there are two product categories: 'Double Wall Paper Cups' and 'Special Printing Cups'. A 'Featured Products' section displays a '40z SW' cup with a 5-star rating. The mobile interface is clean and user-friendly, with clear navigation and product information.

TECHNOLOGY

IT SERVICES

IT SERVICES

IT services & consultancy for Big Data, AI, and Machine Learning involve providing expert guidance and technical support to organizations seeking to harness large datasets and advanced algorithms for improved decision-making and innovation.

STRATEGIC ADVISORY

- Assessing readiness for AI and Big Data.
- Developing integration strategies.
- Identifying use cases and ROI.

IMPLEMENTATION & SUPPORT

- Overseeing the deployment of AI and Big Data solutions.
- Providing ongoing support and optimization for performance improvement.
- Training staff on the use of new tools and technologies.

DATA MANAGEMENT

- Implementing data governance for quality and compliance.
- Designing data architecture for efficient storage and retrieval.
- Integrating data from diverse sources for analysis.

BIG DATA ANALYTICS

- Employing tools and technologies to process and analyze large datasets.
- Conducting exploratory data analysis to uncover insights and trends.
- Visualizing data findings to aid decision-making.

MACHINE LEARNING MODEL DEVELOPMENT

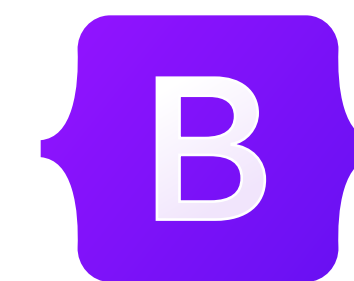

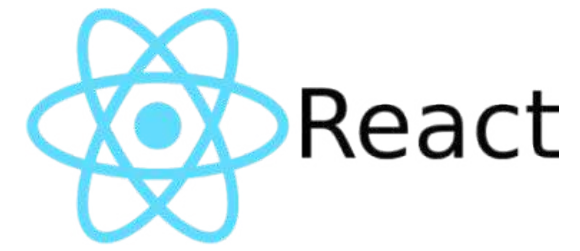

- Building machine learning models for business challenges.
- Leveraging algorithms for predictive analytics and automation.
- Ensuring scalable, long-term solutions.

FULLY MANAGED HOSTING & SECURITY

Ensure your website stays online, optimized, fully backed up, and secure from malware. Includes professional email setup and SSL certificates for secure transactions and user trust.
