[Scrappy Cathedral Windows Tutorial - from start to finish! - YouTube](#)

This is a free pattern with a YouTube video to assist in construction . I suggest viewing the video. She has lots of design ideas with tips for construction of a quilt of any size. I will present the basic construction of the unit in class. You may choose to make a 12" or 18" pillow. I am making a twin size so you will see my project in progress.

Scrappy Windows is composed of three different sections: Window, Frame and Background.

PRECUT all your 3 ½" squares and bring your basic sewing and pressing supplies to class. Three different fabrics are needed to make this unit. It can be totally scrappy, if you desire. The unit measures 6" finished.

Fabrics for a 12" pillow:

- 16 3 ½" Squares for the Background (**Blue** in above picture)
- 32 3 ½" Squares for the Frames (**White** in the above picture)
- 13 3 ½" Squares for the Windows (**Pink** in the above picture)

Fabrics for a 18" pillow:

- 36 3 ½" Squares for the Background (**Blue** in above picture)
- 72 3 ½" Squares for the Frames (**White** in the above picture)
- 25 3 ½" Squares for the Windows (**Pink** in the above picture)
