Disappearing 4 Patch Quilt

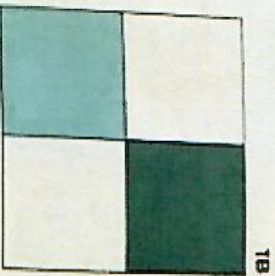

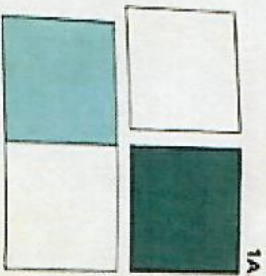

DISAPPEARING 4-PATCH

You won't even have to say abracadabra to make the magic happen when making our Disappearing 4-Patch quilt. Just a few slices, twists and turns and a simple 4-patch magically disappears and becomes a beautiful quilt that looks complicated. Simply don't tell your friends how easy this really is!

1 sew

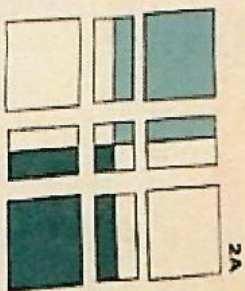

Sew a 5" white square to a 5" print square. **Make 2** and press the seams toward the darker fabric. Sew the units together into a 4-patch as shown. **1A 1B**

2 cut

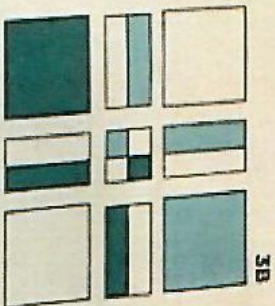

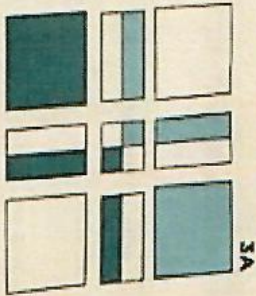

If you have a rotating cutting mat, put the 4-patch block on it before making any cuts. If not, use a small cutting mat that can easily be picked up and turned.

place the 1" line of a rotary cutting ruler vertically on the center seam line. Cut along the edge of the ruler. Turn the cutting mat without disturbing the pieces. Place the 1" line of the ruler on the center seam line. Cut along the edge of the ruler. Continue on in this manner until you have made 4 cuts. **2A**

3 trade

Swap the large squares at the top and bottom of the block. **3A**
Rotate the center square 1 quarter turn counter clockwise. **3B**

4 block construction

Sew the units together in rows. Sew in opposite directions. Sew the rows together. Press. **Make 42. 4A**

Block size: 8 1/2" unfinished, 8" finished
