

MICK'S CRANES AUSTRALIA

CAPABILITY STATEMENT

CRANES YOU CAN TRUST

SERVICE YOU DESERVE

Mick's Cranes Australia (MCA) is proud to be the first Indigenous-owned crane company based in the Northern Territory. With deep roots in Katherine and a strong reputation across the Top End, MCA offers safe, efficient, and professional crane hire solutions tailored to the unique needs of regional, remote, and large-scale projects.

We are pleased to offer access to a national network of over 150 cranes, ranging from:

- 25T Frannas
- 40T–60T Pick & Carry and Slew Cranes
- 80T–130T All-Terrain Cranes
- 160T–400T Slew Cranes
- Up to 600T All-Terrain and Crawler Cranes

Our fleet is supported by a team of experienced operators, riggers, supervisors, and engineers who ensure each lift is planned, executed, and delivered with the highest safety and compliance standards. Whether your project requires wet hire or dry hire, MCA can scale to meet your demands with reliability and professionalism.

Our services include:

- Mobile crane hire (wet and dry)
- Heavy lift planning and lift studies
- Rigging services and logistics support
- Remote and regional project support
- Emergency breakdown response and shutdown works
- Compliance documentation and real-time reporting systems
- Heavy Haulage

MCA is fully compliant with CICA, NT WorkSafe, and national safety standards. We are a proud Supply Nation Certified Indigenous business, committed to supporting local employment, Indigenous engagement, and community development.

OUR HISTORY

The concept for Mick's Cranes Australia was born in 2014 when Michael Assan envisioned creating the first Indigenous-owned crane company in the Northern Territory. Reconising a significant gap in the market for high-quality crane services, Michael set out to address the industry's disparities and provide a more effective solution for local businesses.

In 2022, Michael shared his bold vision with Kate Coggan, who immediately recognised the potential of the project and eagerly joined the venture. Together, their shared passion for excellence and community development led to the official opening of Mick's Cranes Australia in 2024.

At Mick's Cranes Australia, our commitment is unwavering. We provide the highest standards of service and continually strive to be pioneers in Business Advisory Services within the crane industry. Our approach is defined by a strong focus on quality, safety, and a forward-thinking spirit that shapes our role in the evolving crane services landscape.

***“WE PUT SAFETY AND
RELIABILITY AT THE
HEART OF EVERYTHING
WE DO.”***

-MICK

PROUDLY INDIGENOUS

PROUDLY NORTHERN TERRITORY

Mick's Cranes Australia is proud to be the first Indigenous-owned and operated crane company based in the Northern Territory. Established in Katherine, we've built our business from the ground up, combining deep local knowledge, cultural connection, and industry experience to deliver safe, reliable lifting solutions across the NT and beyond.

As a Supply Nation certified and NTIBN certified Indigenous business, we are committed to creating real opportunities for Aboriginal people through employment, training, and long-term economic participation. Our work isn't just about cranes - it's about building capability in our region, supporting remote projects, and making space for Indigenous-led enterprise in heavy industry.

From major construction projects to community events, our team brings strong values, high standards, and a track record of delivering safely and on time. At Mick's Cranes, we take pride in leading the way — not just as crane operators, but as a new force in Indigenous business across the Northern Territory.

HEAVY HAULAGE SERVICES

Mick's Cranes Australia provides specialised heavy haulage solutions for the safe and efficient transportation of oversized and high-mass loads across the Northern Territory and beyond. Using a dedicated prime mover and trailer setup, our team can transport machinery, structural components, containers, and construction equipment to remote and regional project sites.

Our haulage services are supported by experienced operators and are fully compliant with road transport regulations, oversized permits, and route planning requirements. Whether it's a local delivery or a cross-border shipment, MCA guarantees that every load is secured, permitted, and delivered on time.
