Arizona Auto Refrigeration is a locally owned A/C specialty repair shop in operation since 1954. We perform routine maintenance and repair work on all makes/models of cars, SUVs, hybrids, and trucks to any heavy-duty bus, commercial transport or construction vehicle.

We service all refrigerants from older classic vehicles still running R12, the current R134A, to newer vehicles requiring 1234yf. We are here to ensure your driving comfort.
