

WE CHANGE LIVES WITH OUR WHOLE FOOD PHILOSOPHY

We believe in changing lives with nutrition. We start with whole foods and prepare them carefully to safeguard the nutritional value. Our complex formulas may include plant and animal extracts, desiccates, or other ingredients. Our goal is to provide nutrients that are as close as possible to how they are found in nature, nutrients that may be missing in our daily diets.

WE GROW INGREDIENTS ON OUR CERTIFIED ORGANIC FARM

We are committed to growing many whole food ingredients on our 420-acre farm, including:

- More than 6.5 million pounds of plant ingredients every year
- More than 80 percent of the raw plant ingredients used in our products
