

▼ INGREDIENTS

Supplement Facts		
Serving Size: 3 capsules		
Amount Per Serving		% Daily Value
Magnesium (Chelate).....	58.8 mg	15%
Calcium (Carbonate, Malate) ..	105 mg	11%
Proprietary Blend.....	930 mg	-
Poke (Root); Goldenseal (Root); Oregon Grape (Root); Tayuya (Root); Echinacea Purpurea (Root); Garlic (Root); RNA/DNA Sterilized (non-germinating) Yeast; Thymol Iodide; L-Leucine; Pau D'Arco (Bark); Gentian (Root); Yerba Santa (Herb); Hydroxyquinoline (Grapefruit Rind Extract); Leptolalia Oil		
* Daily Value not established.		

Other Ingredients: Cellulose and Dextrose

▼ DOSAGE

- Capsules: 1 - 3 capsules with a BioFunction or other formula, up to four times a day for 2 - 4 weeks.
- Tincture (T): ½ dropper, 4 times a day for 2 - 4 weeks.
- Concentrated Extract (CX): 3-5 drops, 4 times a day for 2 - 4 weeks.

▼ PACKAGING

- Capsules: 60 capsules/eco-bottle.
- Tincture (T): 1 oz. glass bottle with dropper.
- Concentrated Extract (CX): ½ oz. glass bottle with dropper.

▼ PERSPECTIVE

In the Natural Order of life on earth, the human body has learned how to maintain its integrity regarding the myriad bacterial species that often vie for the same "turf" - the warm, moist, nutrient rich climate inside the body. The body depends on foods and botanical molecules to help maintain its normal, healthy relationship with the microbial kingdom.

▼ LIFESTYLE

#3 (Bactrex)

#1003 T3 (Bactrex), #2003 CX3 (Bactrex)

The clinician's choice as the premier formula for whole body support of the cells' health relationship regarding bacterial involvements. Can be used with or without a BioFunction formula. Helps support the body's normal cellular health and immunological integrity, most specifically with respect to bacterial microbiome relationships.

▼ INDICATIONS

- Assist the immune system in its normal role regarding the presence of bacteria
- Reinforce innate cellular metabolic processes toward normal bacterial relationships
- Magnify the impact of the companion BioFunction formula
- Chronic and acute bacterial presence

▼ KEY COMPONENTS

- **Goldenseal** – The most popular herb in the American market. Was used by the Native Americans. Contains inherent berberine salts.
- **Echinacea** – A Native American herb that quickly gained credence among the 19th and 20th Century Eclectic Healers for its powerful support of normal immune relationships regarding bacterial microbiome.
- **Tayuya** – A rain forest botanical root cited in the Brazilian herbal tradition as supporting blood.
- **Garlic** – A classic, powerful botanical agent featuring the extensively researched molecule, allicin, associated with numerous health-supportive, normal body functions; plus numerous sulfur compounds cited as excellent cellular nutrition.
- **Thymol Iodide** – From culinary applications of the herb, thyme, accompanied by the much-needed iodine for overall nutrition.
- **Pau D'Arco** – A rain forest botanical bark backed by hundreds of research studies that demonstrate its role regarding microbiome balance, including the mycobiome and virome.
- **Yerba Santa** – Called the "holy herb," has a long history of helping the body restore its normal, natural role regarding bacterial involvement specifically with respiratory function.
- **Grapefruit Rind Extract** – Rich in antioxidants. Research by physicist, Dr. Harich shows its cleansing and disinfectant uses for hair, skin, and home-surfaces. In nature, the rind protects the grapefruit seeds from the invasive and damaging environment.

▼ CONTRAINDICATIONS

None known with recommended doses. While containing a number of therapeutic botanicals, Doc Wheelwright taught that combined herbal formula nutrients work synergistically, deriving the most benefit from small amounts of ingredients that enhance and support each other.

▼ CLINICIAN CONSENSUS

Example of BioCommand #3 Utilization:

• Support the lungs in normal bacterial relations:

- #3 Bactrex
- #80 R-Lung

• Support the kidneys regarding bacterial duties:

- #3 Bactrex
- #56 K-Kidney

▼ BACKGROUND

BioCommand formulas are a milestone breakthrough in the history of herbology. They were designed by Doc Wheelwright to increase the effectiveness and restorative action of a BioFunction formula (specific tissue nutrition) through enhanced assimilation, increased tissue receptivity, and most importantly, by specifying the direction and impact of the combined herbal matrix toward one of six specific cellular functions (commands). This allows the herbal practitioner greater precision in clinical applications of herbal medicine.

▼ SYNERGISTIC CONSIDERATIONS

#3 (Bactrex) is a complimentary, enhancing formula to any of the BioFunction formulas and many other Systemic formulas by its inclusion. Clinicians' favorite applications include:

- R (Lung) + #3 (Bactrex)
- Gt (Thymus) + #3 (Bactrex)
- GOLD (Immune Shield) + #3 (Bactrex)
- VIVI (Virox) + #3 (Bactrex)
- CA (Cats-A-Tonic) + #3 (Bactrex)
- ACX (Vitamin Detox) + #3 (Bactrex)
- COLD (Zinca Stop) + #3 (Bactrex)
- OXOX (Activator Cell) + #3 (Bactrex)
- OXCC (Cleanser Cell) + #3 (Bactrex)
- TUFF (Tuff Play) + #3 (Bactrex)
- ATAK (Immune Rejuvenator) + #3 (Bactrex)

▼ INGREDIENTS

Supplement Facts		
Serving Size: 3 capsules		
Amount Per Serving		% Daily Value
Vitamin C (Magnesium Ascorbate)	210 mg	350
Magnesium (Ascorbate, Epsom Salt)	23 mg	6
Niacin	15 mg	75
Vitamin K1	40 mcg	50
Vitamin D	1,250 I.U.	313
Vitamin E	40 I.U.	133
Potassium (Potassium Bitartrate)	2mg	*
Proprietary Blend	1130 mg	*
RNA/DNA Thalamus Tissue Factors; Rose Hips (Herb); Sterilized (non-germinating) Yeast; Yucca (Root); Maltodextrin; Bone Marrow; L-Histidine HCl; RNA/DNA Brain Tissue Factors; Green Lipid Mussel; Allantoin; L-Alanine		
* Daily Value not established.		
Other Ingredients: Gelatin and Leucine		

▼ DOSAGE

- Capsules: 1 - 3 capsules with a BioFunction or other formula, up to 3 times a day, for 2 - 4 weeks.
- Tincture (T): ½ dropper, 4 times a day, for 2 - 4 weeks.
- Concentrated Extract (CX): 3-5 drops, 4 times a day, for 2 - 4 weeks.

▼ PACKAGING

- Capsules: 30 capsules/eco-bottle.
- Tincture (T): 1 oz. glass bottle with dropper.
- Concentrated Extract (CX): ½ oz. glass dropper.

▼ PERSPECTIVE

Cellular DNA integrity is dependent on maintenance of telomeres and repair of single nucleotide polymorphisms (called 'Snips'), as well as proper mitosis (cell division and replication processes). Science is finding that nutritional molecules positively impact proper cell replication.

▼ LIFESTYLE

#5 (Stabilizer)

#1005 T5 (Stabilizer), #2005 CX5 (Stabilizer)

Designed to be paired with a BioFunction formula to target a specific tissue with its specific BioCommand directive. Supports the targeted tissue's cellular function regarding healthy mitosis and healthy DNA replication processes to help cells maintain a normal 'cellular identity.' Supports normal cellular reproduction with telomere integrity. Provides nutrients to support the cells' inherent maintenance processes. Works within the overall balanced operation of cellular constancy.

▼ INDICATIONS

- Supports the cells' innate integrity regarding DNA replication
- Engages cellular metabolic processes toward normal function
- Magnifies the impact of the companion BioFunction formula
- Supports normal cellular mitosis processes

▼ KEY COMPONENTS

- **Allantoin** – Called one of nature's great health compounds. A derivative from the comfrey plant. Supports normal youth-preserving cellular processes.
- **L-Alanine** – A master amino acid necessary for protein biosynthesis. Supports healthy glucose metabolism. Supports the immune system and exercise recovery.
- **Vitamin K₁** – Phylloquinone, is found naturally in plants, especially green vegetables; K₁ goes directly to the liver and helps maintain healthy blood clotting.
- **RNA/DNA Thalamus Factors** – Amino acid cellular identity factors for the thalamus (brain) tissue integrity that supports sensory and motor signal relay of consciousness and sleep.
- **Rose Hips** – A botanical source rich in natural vitamin C. Supports and strengthens the collagen. Antioxidant.
- **Non-Germinating Yeast** – A source of basic RNA/DNA constructions and rich in nascent B-vitamins.
- **Yucca Root** – Research shows it supports the maintenance of healthy DNA structural integrity. Antioxidant.
- **Bone Marrow Factors** – Deep nourishment. Rich in fat-soluble vitamins. Nourishment for the immune system and gastrointestinal endothelium.
- **Magnesium Sulfate** – Supplies two important metabolic mineral catalysts including cholesterol sulphate.
- **L-Histidine HCl** – A semi-essential amino acid known to support hemoglobin synthesis and the immune system.
- **RNA/DNA Brain Factors** – Amino acid cellular identity factors for brain tissue integrity.
- **Green Lipped Muscle** – Considered a miracle food because it is one of nature's most nutritionally complete foods. A source of complete amino acid complexes.

▼ CONTRAINDICATIONS

None known with recommended doses. While containing a number of therapeutic botanicals, Doc Wheelwright taught that combined herbal formula nutrients work synergistically deriving the most benefit from small amounts of ingredients that enhance and support each other to gain beneficial impact.

▼ CLINICIAN CONSENSUS

- **Healthy Lung Integrity:**
#5 Stabilizer
#80 R-Lung
- **Health Prostate Integrity:**
#5 Stabilizer
#72 Mpc

▼ BACKGROUND

▼ INGREDIENTS

Supplement Facts		
Serving Size: 3 capsules		
Amount Per Serving		% Daily Value
Vitamin A	39,900 IU	800%
Vitamin C (Magnesium Ascorbate)	300 mg	500%
Vitamin E	180 IU	600%
Proprietary Blend	1,450 mg	*
Rose Hips (Herb); Citrus Bioflavonoids; RNA/DNA Liver Tissue Factors; Paprika (Herb); Damiana (Leaves); Pedra Hume Caa (Leaves); RNA/DNA Thymus Tissue Factors; Acacia Gum; Hesperidin; RNA/DNA Spleen Tissue Factors; Peach (Bark); Echinacea Purpurea (Root); Sun Dew (Herb); Cassia Oil		
*Daily Value is not established.		

Other Ingredients: Gelatin, Dextrose (Organic Grape) and Leucine

▼ DOSAGE

- Capsules: 1-3 capsules, up to twice per day for 1-2 months, or as directed.
- BioTincture (TACX) : ½ - 2 droppers, up the three times per day.
- Concentrated Extract (CXACX): 5 drops up to three times per day.

▼ PACKAGING

- Capsules: 60 capsules/eco-bottle.
- BioTincture (TACX): 1 oz. glass bottle with dropper.
- Concentrated Extract (CXACX): ½ oz. glass bottle with dropper.

▼ PERSPECTIVE

Body purification processes can often become overexuberant and overload the liver's capabilities. This can result in temporary aggravations called Herxheimer Reactions experienced as flare ups of skin rashes, fevers, headaches, which occur as part of the process. The concept of "drainage support" means to provide the body the nutrients it requires to perform its normal functions and not become overloaded and better engage its normal cellular purification processes.

▼ LIFESTYLE

#102 ACX (Vitamin DTX, capsules)

#1102 TACX (Vitamin DTX, tincture), #2102 CXACX (Vitamin DTX, concentrated extract)

Combines supportive nutrients to assist in the normal liver purification processes. A favorite of clinicians to help in providing overall drainage support to the patient.

▼ INDICATIONS

- General whole body purification process support
- Seasonal allergy support
- Drainage support for any program
- Nutritional liver support
- Winterizing – tonic for seasonal challenges
- Nutritional support for normal immune system functions

▼ KEY COMPONENTS

- **Vitamin A** – In the digestive tract and liver, Vitamin A plays a key role in the normal immune modulation processes and thus supports normal, balanced relationships between the body and the microbial kingdom.
- **Vitamin C** – Known as a vital antioxidant, Vitamin C plays a protective role in the cells regarding free radical activity and DNA maintenance. It's a first-line protective nutrient, as well as a chelator of xenobiotic compounds.
- **RNA/DNA Liver Tissue Factors** – Amino acid cellular identity factors for liver tissue integrity.
- **Citrus Bioflavonoids and Hesperidin** – Components accompanying the comprehensive Vitamin C molecule, they support collagen, comprise the normal protective cardiovascular processes, and support healthy immune activity. They increase the purification quotient of Vitamin C.
- **Vitamin E** – Antioxidant qualities; combines with oxygen and assists in neutralizing free radicals. Protects polyunsaturated fats and other oxygen-sensitive compounds such as vitamin A from being destroyed by damaging oxidation reactions.
- **Rose Hips** – Rich in Vitamin C and bioflavonoids; a natural source of nutrients for the body's normal vascular system maintenance.
- **RNA/DNA Spleen Tissue Factors** – Amino acid cellular identity factors for spleen tissue integrity and functional support.
- **Echinacea Purpurea** – Subject of many research studies, this herb has become famous for supporting normal healthy immune and respiratory processes.
- **Paprika** – Rich in carotenoids, plays a role in healthy cell development. Contains natural iron that supports cellular metabolism – allows cells to conduct chemical reactions such as electron transport chain for ATP energy production.
- **Damiana** – An herb with a history of supporting healthy digestion, nerves, circulation, and glucose metabolism.
- **RNA/DNA Thymus Tissue Factors** – Amino acid cellular identity factors for thymus tissue integrity, as well as an immune system support.

- **Pedra Hume Caa** – Leaves are astringent, high content of flavonoids, flavonols, and flavanones and supports normal glucose metabolic and ATP energy processes required for healthy cellular activities.
- **Acacia Gum Powder** – Aids in normal nutrient-absorption processes. Supports gut microbiota.
- **Peach Bark** – Supports normal blood and urinary purification processes. Supports circulation. In Traditional Chinese herbology, helps dispel blood stagnation.

▼ CONTRAINDICATIONS

None. Note: Contains a very rich supply of Vitamin A. Check other components of a comprehensive program for total Vitamin A amounts.

▼ CLINICIAN CONSENSUS

- Normal Purification Process Support:
#102 ACX - Vitamin Detox
#408 CLNZ - Chelator
#433 GCEL - Intracellular Glutathione
#180 REL - Chlorella
#404 BIND - Toxin Elimination

▼ BACKGROUND

Doc Wheelwright took two of his formulas, his ACP formula and a "Liver-x" formula that he developed to support healthy purification channels, left liver lobe support, and drainage support, and balanced them together to create ACX. Thus ACX is two formulas in one. ACX has been the premier drainage support formula for over 30 years.

▼ SYNERGISTIC CONSIDERATIONS

- #180 REL - Chlorella
- #408 CLNZ - Chelator
- #404 BIND - Toxin Elimination
- #433 GCEL - Intracellular Glutathione
- #850 MoRS - Methylation Donor
- #41 Gt - Thymus
- #128 CVO - Cardiovascular Oil
- #491/#492/#493/#494 VRM1-2-3-4
- #483 OXOX - Activator Cell
- #481 OXAA - Organizer Cell
- #482 OXCC - Cleanser Cell
- #402 ARTA - Jointez
- #60 L - Liver
- #62 Ls - Livers
