

Your Liver is Your Body's Natural Filter

Did you know?

The Standard American Diet is loaded with added sugars, trans fats, processed ingredients, and immense portions. Environmental toxins are everywhere with over 80,000 chemicals registered for use in the U.S. **The good news is, we can help.**

Toxin exposure can strain the body's detoxification capacity. Poor toxin clearance may contribute to weight gain, cardiovascular issues, neurocognitive concerns, immune dysfunction, chemical intolerance, reproductive concerns, and developmental challenges.

Changing Lives with Nutrition

Standard Process:

- Is committed to changing lives with a whole food philosophy
- Grows many ingredients on the Standard Process certified organic farm in Wisconsin
- Is serious about quality
- Makes products to support the health of the whole family
- Teams-up with health care professionals
- Has been trusted for generations, with products that have been changing lives since 1929

The **Support** Your **Liver** Needs

Do Your Part for a Healthy Liver

The liver is the body's natural filter, working tirelessly to remove toxins and support our overall well-being. Modern lifestyles and environmental stressors can place a heavy burden on this vital organ. Explore our high-quality supplements that deliver complex nutrients the way nature intended. They contain whole food-based and herbal ingredients that provide nutritional support for healthy liver function, detoxification, and elimination.

SP Purification Program

Stimulates specific detoxification organs in the body — the liver, kidneys, and intestines to decrease toxic load and allow your body to focus on purification*

SP Detox Balance™

Support whole body detoxification and assist your liver in the processing and removal of toxins from your body*

SP Cleanse®

Combines 20 unique whole food and botanical ingredients designed to support healthy kidney, liver, and gallbladder function*

SP Adsorb™

Helps with the body's removal of naturally occurring toxins by supporting a healthy GI barrier and normal elimination*
