21st Annual
BULL SALE

WISHBONE CATTLE CO • NESSET LAKE ANGUS

TWO YEAR OLD • YEARLING • COMMERCIAL REPLACEMENT HEIFERS

2026 **20** *th*
March

21st
All Black
BULL SALE

FRIDAY • MARCH 20TH, 2026 • 1PM CST

TWO YEAR OLD • YEARLING • COMMERCIAL REPLACEMENT HEIFERS

TERMS & CONDITIONS

CONDITIONS AND GUARANTEE: All entries sell with a responsible breeder guarantee of satisfaction. In the event of any unlikely dispute whatever, regular TERMS AND CONDITIONS recognized with Sales Management shall apply, and in accordance with the Canadian Aberdeen Angus Association Code of Ethics.

CATTLE INSPECTION: All carry permanent identity tags, corresponding to Sale Lot Numbers. All shall be available for inspection prior to sale.

ANNOUNCEMENTS: Errors discovered in the catalogue will be corrected by announcements from the auction stand at sale time and such corrections will take precedence over the printed matter in the catalogue.

EVERY ANIMAL: Sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final.

RELEASE: No cattle will be released until the conclusion of the sale. Each animal becomes the risk of the purchaser as soon as sold.

INSURANCE: Ownership risk to purchaser commences when the Auctioneer's hammer falls. Livestock coverage will be available at the Clerk's desk from the appointed representatives on sale day.

TERMS OF SALE: Are cash or cheque at par, payable to Clerks of the Sale on Sale Day. No release will be given until satisfactory settlement has been made. We reserve the right to withhold animals from export shipment for whom payments have not been received.

ALL PERSONS: Who attend the Sale do so at their own risk, and the Owners, Sale Management and Sale Staff assume no liability, legal or otherwise, for property loss or for any accidents that may occur

Welcome

Exciting, exciting, exciting times in the cattle industry. Even better times to be a cow-calf producer. Seems like every year we keep thinking this has to be the high in the market and yet it gets stronger. It's showing more and more how profitable it can be to have a good functional set of cows with longevity and fertility. With big demand for good replacement heifers, they are out selling the steers right now. We have always tried to keep a base set of foundation cows that cover all the boxes well, with high maternal traits first and foremost. We do understand as much as we need maternal, we still need to sell marketable animals with enough growth and performance to meet the buyers' demands. That is the beauty of the Angus breed, there is enough diversity in the breed that you can almost get a hybrid vigour within our own breed and still maintain the good Angus cow that does everything flawlessly.

We feel this year's set of bulls check most of the boxes - high maternal bred bulls with enough balanced traits that make them appealing to commercial cattlemen. We try to develop these bulls so they last and you, the customer, can get as many years as possible out of them.

We look forward to seeing everyone sale day and hopefully before. We love having people come out before the sale to look at the bulls and cows.

- Blair, Lacey, Wren & Georgi Brooks

This is a bull we have enjoyed watching grow up. 37M has lots of length, exceptional feet, and lots of eye appeal. His dam was a cow you'd love to have a pasture full of. She was good uddered, great feet and weighed 1400lbs in a very moderate package. All of our Eureka bred daughters were beautifully made with lots of body and just did everything right for us; they seemed to stick around until they were 10 years old or older. Having Coleman Donna 714 in his pedigree, I think this can only add to the merit of this bull that comes from a cow out of the heart of the Bowerman program.

Moderate framed, clean-made bull. Last year's maternal brother went to Chuck Parsonage. Safe to use on heifers.

**DEVELOPED TO LAST**

"All of our bulls have been developed on free-choice hay and 1% of their bodyweight on a high-grain pellet. As yearlings they graze from May 15 to September 20 on a sanfoin/cicer milkvetch pasture. We try to develop these bulls in a way that promotes longevity but still have them looking their best on sale day."

7

Extra depth, spring of rib, and lots of hip in 34M. A bull that will add pounds and make great daughters.

This bull caught our eyes all summer. He is probably the deepest 782J son in the offering. Lots of longevity in this guy's pedigree.

8

Dam of Lot 9

As good as this bull looks in person, you'll love him even more after you see his dam. Since we purchased her from Ivan, she has never disappointed. The 1st son we sold off of her was our highest selling yearling bull in 2023.

Stout, stylish bull that will work on cows or heifers.

1M has been a favourite since he was a calf. He has a bit more frame than alot of our Legacy sons had over the years. There is many great cows in this guy's pedigree. Ruby Belle 1934, his paternal grand-dam, was designated an Elite Cow at the age of 5. 1M's dam, 54E, has been an exceptional cow for us - 54E's dam, 91S, has been a cornerstone at Nessel Lake and served as a donor dam for Leeuwenburgh Angus.

23

Moderate-framed bull out of a productive Density daughter out of the good 91S cow of Lacey's.

If you're looking for a little more performance with style and class, this is your bull. 54M has lots of muscle, length, and depth. A pedigree that has a lot of proven bulls as well. All of our South Dakota daughters are rising to the top of our herd. We had a bull go down the summer of 2023 and used Ivan's Attractive bull, after seeing how these bulls turned out I wish we would've used him more.

Wishbone Cattle Co.

Welcome

Welcome to our 20th Annual All Black Bull Sale!

All aspects of the livestock industry look promising for the next several years. The cow numbers are down across Canada and the US and are not showing much sign of rebuild yet, so this indicates strong prices for the future. Remember we are getting paid by the pound for our calves or yearlings so selecting a top-notch bull from proven genetics is relatively inexpensive and will pay off dividends in the long run.

Once again, this year's offerings are from the younger cows and the older proven elite cows that have stood the test of time. So, if you're looking at retaining heifers for rebuilding or increasing your herd, there is longevity here. With that being said, the group of bulls are top tier and from all great maternal lines. We select sires for a balance of performance, calving ease, fleshing ability and strong maternal traits. This fall we weaned September 16th after very little rain in June; it turned the tap off in July and there was basically no rain the rest of the summer. It is amazing how good the pastures came back after a bit of rain in the fall and ended up with excellent pastures and average haycrops.

The bulls have been fed Masterfeeds Bull ration and free choice hay. They have been vaccinated spring and pre-weaning with Vista Once SQ, Vision 8 Somnus vaccines and Inforce 3 to aid in the prevention of respiratory issues.

We were so fortunate to go on a holiday to Austria for 2 weeks the end of August to visit one of our past exchange students and her fiancé. Vienna was beautiful but the highlight of the trip was travelling to the countryside and a tour into the mountain pastures to see cows!!!

Ranch life continues to keep us busy and is a great way of life. We are so fortunate to have children and grandchildren who love this as well. Chris, Jenna and girls keep busy in Smiley with work and school and come to help with the cows as often as they can. Lacey and Blair are busier than ever with 2 little girls. Our son Sheldon, Lori and family are close by and are always there to lend a hand. We now have 12 grandchildren and 3 great grandchildren! Very blessed!!!

Videos will be available on the DLMS website along with the catalogue. Anyone interested in viewing the bulls can stop by anytime for a visit – coffee is always on. Thank you to all our past buyers and we look forward to seeing you again this year.

- Ivan & Julie Demmans & Family

Lot 35 & 36 are full flush brothers. They pattern very similarly and come from a "never miss" cow family. Maternal brothers to Chase Holbrook, Richard Alger, and Archie Kwasniuk. Calving-ease bulls with extra thickness and muscle – wide-topped and carry their muscle down the quarter. When you get behind these bulls you can really appreciate their muscle mass.

37

Another eye-appealing Mindset son. He's big-ribbed and wide-topped like his half sibs. Calving-ease but ample performance to use on cows too.

Calving-ease bull with natural muscling. This Stellar female did a great job on her first attempt. Two outstanding females in his pedigree that have contributed a lot to our herd, 47A & 70E. Maternal brother to Robert Lavallee.

Dam of Lot 56

*Big thank you to our clipping crew
 this year that put in a full day &
 continued on under the lights*

Big-topped, deep-ribbed cow bull. This bull's steers will weigh up in the fall and his heifers will make excellent replacements. Maternal brother to 44 Ranch.

The youngest bull in the pen, but that doesn't set him back any. Thick-topped, deep rib and lots of style. His granddam produced until 15 years of age.

COMMERCIAL FEMALES

This year we're including commercial females as a part of our sale. These heifers are influenced by Wishbone Cattle Co and Nessel Lake Angus genetics - we are proud to be able to showcase some of our customers breeding programs. The heifers will sell in uniform packages with the option of gate-run five or more. All are replacement quality females. All females will have been palpated for breeding soundness prior to sale day.

59 Kyle & Leah Lantz - 10 heifers

Kyle & Leah run a large herd of commercial Black Angus cows. These cows run in rough country and Kyle is very harsh when it comes to culling for fertility. These heifers will be the most condensed offering of our genetics. Kyle has bought the front-end of the bulls at the sale for the last 10+ years.

60 James & Rachelle Jensen - 10 heifers

James & Rachelle have a very nice set of Angus cows that raise a very uniform set of calves every year - they take a lot of pride in their cows. James is the Service Manager at Lazar Equipment and Rachelle is the face behind Vast Wilderness Clothing Company. While staying busy with a young family they also make 4000-6000 bales a year.

61 The Dorval's - 10 heifers

Richard & Kolten run a nice set of Black cows just north of Glaslyn. They are excellent stockmen that do a great job of feeding and looking after cattle. This is our (Wishbone) 4th winter of working with them on getting commercial cows and feeder cattle fed at their place.

62 Nessel Lake Angus - 15 heifers
