BULLS WILL BE ON DISPLAY AT MEADOW LAKE LIVESTOCK SALES
FROM NOON THURSDAY, MARCH 20TH FOR VIEWING

20 years..... And this marks my 10th year of being a part of the Annual All Black Bull Sale.

It is incredible what we have seen in the last 10 years and is very remarkable what we are seeing now in the cattle industry. In the last few years, we have seen the market climb every fall and then continue to get stronger into the spring followed by an even higher fall. The last few years, prices got higher just to match input costs, but now I strongly feel we are way beyond meeting input costs. As we all try to watch these costs, sometimes buying the best bull we can for our operation can be our best return on our money.

As always, we strive to raise cattle with depth, width, length, and eye appeal. We don't chase extremes or worry about using the newest genetics, instead we focus on proven predictable genetics. If we do use newer genetics, as we are Aling more, we focus on there being very proven and highly sought after cows in the pedigree. It is our goal to produce cattle that can work as well in our customers pastures as they do in ours. We have heavily relied on creating our own proven sires to build a uniform cowherd - this has allowed us to introduce some newer proven genetics to better accomodate our customers, while not jeopardizing our cowherd's characteristics that has kept so many repeat customers over the years.

We have responsibly fed these bulls to look their best come sale day, yet not compromise their futures. The bulls have been backgrounded on pellets at 1% of their bodyweight after weaning until they go to grass in May. They then graze a sanfoin/cicer milkvetch blend for the summer and come home in September to a diet of free choice hay and pellets. The bulls continue pellets at 1% of their bodyweight until they reach 14lbs of pellets. We encourage everyone to come and look at the bulls prior to sale day!

Blair, Lacey, Wren & Georgi Brooks

Over the past couple of years Jim J Henderson has toured our herd extensively and would be happy to answer any questions regarding this years sale bulls or females in the herd.

We had acow get set to AI that we never intended on All'ing, we thought it would be neat to try a Brangus bull. We never had the heart to cut him at branding or before we went to grass. He's just stuck around and kept growing. He has lots of growth and lots of hair. Note that his calves will only be 1/8 Brahman.

•Please join us for a complimentary lunch before the sale•

Welcome to our 20th Annual All Black Bull Sale! All aspects of the livestock industry look promising for the next several years. Anyone who went through the BSE years would ever have imagined the prices we are receiving today. All signs indicate this will continue for several years to come. Remember we are getting paid by the pound for our calves or yearlings so selecting a top-notch bull from proven genetics is relatively inexpensive and will pay off dividends in the long run.

Once again, this year's offerings are from the younger cows and the older proven elite cows that have stood the test of time. So, if you're looking at retaining heifers for rebuilding or increasing your herd, there is longevity here. With that being said, the group of bulls are top tier and from all great maternal lines. We select sires

for a balance of performance, calving ease, fleshing ability and strong maternal traits. This fall we weaned October 3rd. We received ample rain in May and June, then it turned the tap off in July and there was no rain for the rest of the summer. July also brought scorching heat, and the smoke moved in from the wild fires making it a challenge to get bumper hay crops wrapped up. It was fortunate we had the earlier moisture because the grass grew exceptionally well and carried the pastures until we got rain later in the fall. The pastures rebounded and carried us through till snowfall.

The bulls have been fed Masterfeeds Bull ration and free choice hay. They have been vaccinated spring and pre-weaning with Bovi-Shield BVD One Shot vaccine and Inforce 3 to aid in the prevention of respiratory issues.

Ranch life continues to keep us busy and is a great way of life. We are so fortunate to have children and grandchildren who love this as well. Chris continues to drive truck in the oilfield around Smiley and Jenna is busy at home with their 3 girls – Madison in Grade 8, Jordynn in Grade 7 and Kaycee in Grade 3. The girls are in Horse 4-H and other various school activities. They enjoy coming to Meadow Lake to help with branding, hauling cows, weighing, and other ranch activities. Lacey and Blair are busier than ever with 2 little girls. Our son Sheldon and Lori and family have blessed us with 2 great grandchildren!

The 2024 Saskatchewan Angus Tour was another great event to attend. Once again, I was invited along with Alliance Genetics who takes a group of breeders to the bull studs in Billings, Montana. We did a 4 day tour and it was great to see all the new bulls and network with other breeders.

Videos will be available on the DLMS website along with the catalogue. Anyone interested in viewing the bulls can stop by anytime for a visit – coffee is always on. Thank you to all our past buyers and we look forward to seeing you again this year.

Avan & Julie Demmans and family

Nesset Lake Angus reserves the right to draw semen for in-herd use, from any of the bulls; at purchaser's convenience and seller's expense

In the fall of 2022 we purchased 35K from Miller Wilson Angus as a bull calf. We had seen pictures of him as a month old calf and as an 8 month old calf - when we saw him in person he did not disappoint. He was very easy to appreciate for his width and depth, especially to follow all that up with being a heifer's 1st calf. Having his 2nd calf crop hitting the ground this year, he has not disappointed us one bit.

August 2024 - after a spring and summer breeding season

A very powerful bull with great neck extension and tons of muscle. It's very seldom you find a heifer bull of this magnitude with a 74lb birthweight. 7M's granddam and greatdam are both working at Wishbone Cattle – lots of maternal strength and longevity. He's had that herdbull look all summer – his mother did a great job on her 1st calf. As you can see by the pictures, he always catches your eye across the pen.

95	741	1106	+3.8	+46	+79	+18	-3

A more moderate-framed but soggy bull with a great hair-coat. His dam is a big volume Tiger 30Z daughter – theses females have worked very well here at Nesset Lake and wish we could make more of them.

One of our older cow’s calf – he will have a bit of calving ease as his maternal grandsire was my surefire heifer bull. This guy could be used on heifers or cows. With Emblazon and Freightliner in the pedigree, he’ll make great females.

47A has earned her spot in the donor pen this year - she'll be headed to Davis Rairdan come spring and we're excited to get some embryos in the tank out of her so she can continue her positive influence on the herd for years to come. She is a long, broody, feminine female that caught many visitors eyes on the 2021 Summer Angus Tour we hosted. She has a picture-perfect udder with small, uniform teats and great suspension. 47A is as sound as a 4 year old cow. She's one of those cows you love to show-off and anticipate her mating every year!

You choose the sire of your choice to mate 47A to - choose a calving ease bull & create some awesome heifer bulls or choose a power bull and have the backing of a great maternal bloodline. Guaranteeing 6 embryos with an open top.

2021 Bull Calf - ID# 94J

TERMS & CONDITIONS

CONDITIONS AND GUARANTEE: All entries sell with a responsible breeder guarantee of satisfaction. In the event of any unlikely dispute whatever, regular TERMS AND CONDITIONS recognized with Sales Management shall apply, and in accordance with the Canadian Aberdeen Angus Association Code of Ethics.

CATTLE INSPECTION: All carry permanent identity tags, corresponding to Sale Lot Numbers. All shall be available for inspection prior to sale.

ANNOUNCEMENTS: Errors discovered in the catalogue will be corrected by announcements from the auction stand at sale time and such corrections will take precedence over the printed matter in the catalogue.

EVERY ANIMAL: Sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final.

RELEASE: No cattle will be released until the conclusion of the sale. Each animal becomes the risk of the purchaser as soon as sold.

INSURANCE: Ownership risk to purchaser commences when the Auctioneer's hammer falls. Livestock coverage will be available at the Clerk's desk from the appointed representatives on sale day.

TERMS OF SALE: Are cash or cheque at par, payable to Clerks of the Sale on Sale Day. No release will be given until satisfactory settlement has been made. We reserve the right to withhold animals from export shipment for whom payments have not been received.

ALL PERSONS: Who attend the Sale do so at their own risk, and the Owners, Sale Management Wand Sale Staff assume no liability, legal or otherwise, for property loss or for any accidents that may occur

COMMERCIAL FEMALES

This year we're including commercial females as a part of our sale. These heifers are influenced by Wishbone Cattle Co and Nesset Lake Angus genetics - we are proud to be able to showcase some of our customers breeding programs. The heifers will sell in uniform packages with the option of gate-run five or more. All are replacement quality females. All females will have been palpated for breeding soundness prior to sale day.

48 Kyle & Leah Lantz - 35 heifers

Kyle & Leah run a large herd of commercial Black Angus cows. These cows run in rough country and Kyle is very harsh when it comes to culling for fertility. These heifers will be the most condensed offering of our genetics. Kyle has bought the front-end of the bulls at the sale for the last 10+ years.

49 James & Rachelle Jensen - 20 heifers

James & Rachelle have a very nice set of Angus cows that raise a very uniform set of calves every year - they take a lot of pride in their cows. James is the Service Manager at Lazar Equipment and Rachelle is the face behind Vast Wilderness Clothing Company. While staying busy with a young family they also make 4000-6000 bales a year.

50 Jarrid & Rochelle Ecker - 20 heifers

Jarrid & Rochelle are a young ocuple who just got married last summer. Jarid has worked for Meadow Lake Livestock Sales since 2017 and in 2019 took over the role of yard foreman. They acquired another herd of cows last fall, so he won't be around the market as much as previous years. We miss having him around but appreciate when he can come. Jarrid has been a big help at home too whether it's picturing bulls, branding calves or tinning a roof.

51 The Dorval's - 5 heifers

Richard & Kolten run a nice set of Black cows just north of Glaslyn. They are excellent stockmen that do a great job of feeding and looking after cattle. This is our (Wishbone) 3rd winter of working with them on getting commercial cows and feeder cattle fed at their place.

51 Nesset Lake Angus - 10 heifers
