The 2021 edition of the All Black Bull Sale has the table set to be a good one with an even set of bulls across the board. Not boasting any extremes in type and kind, rather the practical kind that is applicable to all factors of the beef industry. Performance and doability stand out as some of the most important qualities that the cattle can have. Whether it's a harsh winter or a summer filled with rain where the grass is pretty watered down the ability to adapt and continue on in a productive manner is a must! Tried and proven genetics coming from the programs which are represented through this bull sale makes for buyer satisfaction year in and year out.

The All Black Bull Sale offering presents various types of bulls which will serve their purposes well, whether it is a true blue heifer, performance minded bull or that bull that covers a little bit of all the bases there is a bull here for your herd. Best of all you know that these cattle have been designed and developed for your best interest today and in the future. Committed cattle breeders putting their best foot forward to you the buyer maybe sums it up the best, there's a reason why so many bulls go to repeat buyers over the years....they work!

Feel welcome to go through the bulls in their respective herds ahead of the sale allowing you to visit in a one on one scenario to best understand what bulls might fit your criteria, it's the best part of the cattle business! Should you have any questions regarding the offering consider this your invitation to get in contact with Ivan, Harvey, Sheldon, Lacey or Blair they'd be happy to hear from you or contact any of us at Castlerock Marketing as we are here to help.

See you sale day!

WISHBONE CATTLE CO. & BOWERMAN BROS

On behalf of everyone involved with the All Black Bull Sale, we would like to invite you to our 16th Annual Bull Sale. As I am writing this, I'm imagining every introduction is saying something about how hopefully 2021 is going to be a better year than last. One thing it did show us is there is always another way to do something and we can learn how to cope and adapt; this being something in agriculture which everyone is used to. Myself, I didn't find it much different than an unexpected snowstorm during calving or getting 2 inches of rain the day you're going to brand. You just make a game plan best suited for the hand you were dealt.

We are extremely excited about the bulls on offer – we had a great year for grass and the bulls came home almost looking sale ready! This has made winter feeding much easier. We do have some new sire groups this year, which have worked out very well for us. There is also a larger selection of heifer bulls than we have ever had. Many of the heifer bulls will also work on cows – these bulls will still sire growthy steer calves and replacement heifers you won't want to part with.

With it looking like the COVID regulations will not be lessening before the sale, we encourage and will welcome anyone to come to the ranch to look at this year's set of bulls. We will have videos up earlier this year and once again the sale will be on DLMS. So please feel free to contact us at anytime to ask questions or to come and view the bulls, cows, and next year's prospects. We sure hope to see everyone come March 18th and hope we can enjoy a visit during sale day.

We wanted to find an outcross bull, but one that was similar to what we had been using. VRD is noted for adding pounds and length to his calves - and I have always been interested in the older genetics. I was only able to source a few straws of semen and wished we could've gotten more. We were extremely pleased with the offspring!

A great home-raised bull that exhibits all the traits he inherited from his sire and dam. His dam, 2167, is the daughter of BBAR Lady Monogram 167'96 a very powerful cow who has been a foundation to the BBAR program. OCC Legacy 839L has created much interest over the years and left many great progeny that keep many repeat buyers coming back. When looking at the cows it isn't hard to pick out the Legacy daughters, they are long, thick, and deep with so much eye appeal. BBAR High Stakes 220 has been used for the past 4 years in the purebred herd and we are extremely happy with the results.

During the winter of 2018 we had gone to tour Genex and saw Commando. Personally, I thought he was the most complete bull we saw that day and had tons of eye appeal - then to top it off a calving ease heifer bull. We AI'd all of our heifers in 2019 to him and my only regret was we didn't use him again the next year. We will be Aling the heifers again this year though!

512 sires calves with lots of growth and eye appeal. He has covered over 70 cows the last 3 summers between BBAR and VeeTee Angus, and still kept his condition over the breeding season. We are really looking forward to seeing his daughters in production. His 10 year old dam has a flawless udder and great feet.

Lot 13 & 14 are twins. Their Jipsey Earl dam is a heavy producing 11 year old cow. She weaned off 1090 between these 2 calves and bred back on the first cycle. These 2 bulls have eye appeal with depth and width. Two very moderate-framed bulls, that you could keep every heifer off of them.

This bull is almost a carbon copy of Admiration. Unfortunately he sells unregistered – any commercial cowman looking for an extremely long, deep-made bull – this is him! 4122 didn't lack on style and neither does this bull's dam who is a granddaughter of Sinclair XXP.

NESSET LAKE ANGUS & ISLAND HILL ANGUS

We are pleased to be hosting our 16th Annual All Black Bull Sale at the Meadow Lake Stockyards. We have more bulls than ever sired by our walking sires and couldn't be happier with them. We also have a varied selection of AI sired bulls and are excited about 2021! All of the AI sires we select have a balance of calving ease, fleshing ability and strong maternal traits. We also stress docility in our cow herd. This fall we weaned September 25th. The bulls have been fed Masterfeeds Bull ration and free choice hay. They have been vaccinated spring and pre-weaning with Bovi-Shield BVD One Shot vaccine and Inforce 3 to aid in the prevention of respiratory issues.

Our December was busy with taking bred heifers to the Touch of Class Sale in Saskatoon and the Form and Function Sale in Lloydminster. The sale teams did an awesome job making the sales a success despite the regulations in place at the time. We are thankful that sales are able to be online allowing our industry to continue relatively normal.

Ranch life is busier than ever for Ivan, and Julie retired from her office job to be at home full time. Chris continues to drive truck in the oilfield around Smiley and also worked for a farmer to fill in for the slow times. Jenna is busy at home with the 3 girls – Madison in Grade 4, Jordynn in Grade 3 and Kaycee in Pre-Kindergarten. They enjoy coming to Meadow Lake to help with branding, hauling cows, weighing, and other ranch activities. Lacey and Blair Brooks tied the knot in 2020 and we were so happy to all celebrate a beautiful June pasture wedding! She also started running the kitchen at the Stockyards in October.

2020 was certainly a year like no other and we are hoping 2021 brings us new beginnings! Videos will be available on the DLMS website along with the catalogue. This year more than ever, the videos are a great tool for selection as they provide a good representation of the bulls. If you have any questions about the bulls and want an impartial opinion, do not be afraid to contact Castlerock Marketing Sales as they have been through the entire herd at Nesset Lake Angus for multiple years. Anyone interested in viewing the bulls can stop by anytime for a visit – we should not have any difficulties social distancing in the bull pen! Thank you to all of our past buyers and we look forward to seeing you again this year.

-Ivan Julie & Lacey

Chris, Jenna, Madison, Jordynn & Kaycee

This year we are offering 3 of our top bulls from Island Hill Angus. Knowing that we are a small-scale ranch we can offer you the best of our 2020 crop. This past year has been a different lifestyle for most of us, we have all been impacted by the past year events. Being a local breeder, we pride ourselves with only our best.

This year 2 of our bulls are sired from one of our own home raised AI herd sires Cole Creek Cedar Ridge IV out of a NetWorth daughter with a higher birth weight and lots of performance. Cedar Ridge is a top seller from Genex with proven longevity and produces outstanding working females.

Thrive is the sire of our third bull in the sale, he is out of one of our Pioneer daughters who has consistently produced well for us. Unfortunately, we lost her last fall. He is an AI calf that is put together like his sire, mid framed, big barrelled with a great disposition.

Changes for Island Hill Angus are on the horizon, but in the meantime we are continuing with our busy lives! Sheldon's time is spent between his full-time work at Meadow Lake Mechanical Pulp Mill and his passion for the full-time work on the farm! Lori continues as a Registered Nurse at the Meadow Lake Hospital and the busy life of a mom. Emery is now 11 and in grade 6 and Beckson is 7 and in grade one. This year they are both in 4-H, but activities for the club have been very limited. We are still hoping for the achievement day at the end of the year. The kids have spent a lot less time with extra curricular activities and a lot more time outside on the farm!

Our three oldest children Jade, Kira and Cassidy have begun their own journey's in life and we are thrilled to watch their path's unfold.

We know how busy life is and we appreciate the time you have taken to view, call or attend this sale. We are looking forward to seeing everyone at the sale. Please feel free to contact us for more information.

-Sheldon, Lori & Family

69C is a home-raised Payweight 107S son that was sold to Lee Cockrum and we retained semen interest on. We are very happy with his females that calved the past few years and they are very neat-uddered. The bulls out of him are always long-spined and packed with muscle, resulting in top weaning weights.

70F is another home-raised bull out of the ICC PayRaise 4886 AI bull. He was one of the stoutest bulls of the 2019 calf crop and had lots of eye appeal and style. This is our first set of calves off of 70F and we are very pleased with his progeny so far as we only bred a select few heifers and cows to him.

49D is a bull we purchased in 2017 out of the Triple A Bull Test. I saw the old South Dakota bull in Billings and was very impressed with his quarter, spring of rib, and he was very good-footed. I was very impressed with 49D's performance and the maternal side of his pedigree. We are continually impressed with his offspring and their added length of body, spring of rib, and natural muscling.

We purchased Net Worth because of his impressive muscle expression and natural thickness. He is out of a Nessel Lake dam who was sold in our production sale years back in Vermillion. The bull's granddam, Nessel Lake Lass 62M, is also the granddam of Nessel Lake Payweight 69C so we knew he was backed by a great cow family. He stamps every single calf with his hip and muscling.

A very popular AI sire from Genex noted for calving ease and performance. I had the opportunity to see Stunners sire LD Capitalist 316 in stud and I thought he was flat out awesome, however Capitalist semen is incredibly hard to come by as is Stunner semen now. These bulls were purchased in utero at the Windy Willows Herd Reduction sale – as we do not have any Stunner semen in the tank at home.

One of the top selling bulls out of our 2016 sale that sold to Freeman Iwasiuk of Classic Livestock. We retained a semen interest on him and Al'd a select group of cows to. He was a deep-bodied, thick bull in a moderate package off of an elite Main Event female who is now a donor cow.

We saw this bull at Genex Stud – I was very impressed with his masculinity, feet and legs, and muscle pattern. This is our first set of calves and we are very happy with what we have seen so far. His dam is a Conneally Thunder daughter which was a calving ease bull with strong maternal traits and noted for good feet and legs. This is our 5th crop of Logic calves.

The Aberdeen bull is an older proven sire that we tried a few straws of a couple of years ago. We were impressed by his progeny, but his semen is very rare to come by. We ended up being able to source another 25 straws for last year's breeding season. We are very happy with his performance for a calving ease bull and his females are exceptional.

BUYER'S NOTES

Snapshots of the past year.....

TERMS & CONDITIONS

CONDITIONS AND GUARANTEE: All entries sell with a responsible breeder guarantee of satisfaction. In the event of any unlikely dispute whatever, regular TERMS AND CONDITIONS recognized with Sales Management shall apply, and in accordance with the Canadian Aberdeen Angus Association Code of Ethics.

CATTLE INSPECTION: All carry permanent identity tags, corresponding to Sale Lot Numbers. All shall be available for inspection prior to sale.

ANNOUNCEMENTS: Errors discovered in the catalogue will be corrected by announcements from the auction stand at sale time and such corrections will take precedence over the printed matter in the catalogue.

EVERY ANIMAL: Sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final.

RELEASE: No cattle will be released until the conclusion of the sale. Each animal becomes the risk of the purchaser as soon as sold.

INSURANCE: Ownership risk to purchaser commences when the Auctioneer's hammer falls. Livestock coverage will be available at the Clerk's desk from the appointed representatives on sale day.

TERMS OF SALE: Are cash or cheque at par, payable to Clerks of the Sale on Sale Day. No release will be given until satisfactory settlement has been made. We reserve the right to withhold animals from export shipment for whom payments have not been received.

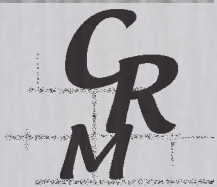

ALL PERSONS: Who attend the Sale do so at their own risk, and the Owners, Sale Management and Sale Staff assume no liability, legal or otherwise, for property loss or for any accidents that may occur

EPDs

- Expected Progeny Differences are values that predict how the future progeny of an animal will perform relative to the progeny of other animals in the same breed.
- Are expressed in the units measured of that particular trait. For example, weaning weight is measured in pounds.
- Allow a fair comparison of breeding value by removing environmental bias such as climate, feed and special management.
- Are the best tool available to compare animals between herds, countries and year of birth
