Welcome to the All Black Bull Sale as always it is a pleasure to work with these enthusiastic breeders and the programs they represent. Hard working cows are a must and if you don't have the right genetics you are missing out of that advantage. The summer was an excellent indicator of what cows and cattle are doing their job properly as they will have come in safe in calf and raised a strong calf, if they didn't it was quite evident! The cattle business is quite simple, breed, raise a good calf and stay sound through the years and it is those cattle that are profitable, the ones that are taking up your time with being lame or sick find their way to the regular sale.

August of 2021 the Saskatchewan Angus Association held its annual tour in Meadow Lake on the first day and was met with open arms by 150 plus Angus enthusiasts who were more than impressed with the display of cattle that these good folks put forward. Working cows in working condition, cold drinks and great food made the tour a success! Hats off to you all for that.

Any questions feel welcome to reach out to us at Castlerock Marketing and we would be happy to speak with you regarding these programs!

See you sale day!

WISHBONE

Cattle Co.

Welcome to the 17th Annual All Black Bull Sale. I hope everyone has wintered well, with adequate amounts of snow to help kick-start spring. 2021 was very trying to say the least. The one thing I am thankful for is the hardiness of a black angus cow. After a summer with a shortage of grass, lack of water, and an over abundance of flies and insects - the cows weaned a tremendous set of calves, bred back, and maintained good body condition going into the winter.

This summer, we were very fortunate to be one of the stops on the Saskatchewan Angus Tour. It was great to have so many people visit northern Saskatchewan to see our program. We enjoyed meeting new people and visiting with the attendees from around western Canada.

Our line-up of sale bulls this year is very similar to most years - with the majority of the bulls being sired by bulls we have raised or bulls that come from programs who have the same expectations of a cow as we do. We do have an embryo transfer calf that came in a recip cow from Jim Henderson - offspring of KR Lady May 4382 have been getting a lot of attention the last couple years.

Blair, Lacey, & Wren Brooks

A great home-raised bull that exhibits all the traits he inherited from his sire and dam. His dam, 2167, is the daughter of BBAR Lady Monogram 167'96 a very powerful cow who has been a foundation to the BBAR program. OCC Legacy 839L has created much interest over the years and left many great progeny that keep many repeat buyers coming back. When looking at the cows it isn't hard to pick out the Legacy daughters, they are long, thick, and deep with so much eye appeal. BBAR High Stakes 220 has been used for the past 4 years in the purebred herd and we are extremely happy with the results.

512 sires calves with lots of growth and eye appeal. He has covered over 70 cows the last 3 summers between BBAR and VeeTee Angus, and still kept his condition over the breeding season. We are really looking forward to seeing his daughters in production. His 10 year old dam has a flawless udder and great feet.

Ever since Jim Henderson bought KR Lady May 4382 out of Kreb's dispersal, there has been embryos and progeny in many sales the past couple years. 9538 is sired by the famous Basin Payweight 1682 - we saw him at Origen a few years back and he was very impressive and in my opinion one of the best bulls there that day.

Generations of calving ease in this guy.

NESSET LAKE ANGUS & ISLAND HILL ANGUS

It doesn't seem possible, but it is our 17th Annual All Black Bull Sale! A good portion of our bull offering are AI sired this year, our largest sired group being Ellingson Roughrider 4202. We are very happy with the progeny, they are all very consistent with a wide top, natural muscling and depth of body. We select sires for balance of calving ease, fleshing ability and strong maternal traits. This fall we weaned September 14th after a long, hot summer which everyone experienced. The bulls have been fed Masterfeeds Bull ration and free choice hay. They have been vaccinated spring and pre-weaning with Bovi-Shield BVD One Shot vaccine and Inforce 3 to aid in the prevention of respiratory issues.

Ranch life always keeps us busy, and Julie also helps Lacey run the kitchen at the Stockyards. Chris continues to drive truck in the oilfield around Smiley and Jenna is busy at home with their 3 girls – Madison in Grade 5, Jordynn in Grade 4 and Kaycee in Kindergarten. They enjoy coming to Meadow Lake to help with branding, hauling cows, weighing, and other ranch activities. Lacey and Blair welcomed a new baby girl in December, and we are thrilled to have a little one to spoil and love. Family times are great, and we recently celebrated our oldest granddaughter Jade's wedding, a beautiful outdoor ceremony in January!

We were excited to host the 2021 Angus Tour in the northwest in August. We were especially grateful for those who travelled long distances to see all of the breeder's cattle in our area! A great social event, seeing old and new faces makes us appreciate this special industry we are part of!

Videos will be available on the DLMS website along with the catalogue. If you have any questions about the bulls and want an impartial opinion, do not be afraid to contact Castlerock Marketing Sales as they have been through the entire herd at Nesset Lake Angus for multiple years. Anyone interested in viewing the bulls can stop by anytime for a visit – coffee is always on. Thank you to all our past buyers and we look forward to seeing you again this year.

- Ivan & Julie Demmans and family

Island Hill Angus is excited and proud to be a part of the All Black Bull Sale at Northern Livestock Sales in Meadow Lake. Our herd sire is an AI Cedar Ridge calf we raised out of one of our Networth daughters. He is a bull that added performance and power to our herd. We have our first set of daughters from him that are proving to add quality to our program.

Musgrave Aviator was seen at Origin in Montana and Sheldon was impressed with his calving ease and good performance, so we purchased an Aviator son.

We were thrilled to be a part of the Saskatchewan Angus Tour this past summer. It was a great event getting to meet and learn from fellow cattlemen.

This year is proving to be an eventful and exciting year for our family! We will be working on establishing our new home and yard site. Our oldest, Jade was married in January and our second oldest, Kira is planning for her wedding in August. Cassidy is working hard to finish her last year in nursing. The two youngest, Emery (12) and Beckson (8) continue to keep us busy!

We know how busy life can be and we appreciate your time and interest. We look forward to seeing everyone at the sale!

- Sheldon & Lori Shkopich and family

- These Attractive sons were purchased as embryos from Eastondale Angus – we're selling choice of 39A & B – if you're searching for performance bulls these bulls will check the box
- They've been standouts since they hit the ground and were very popular on the summer angus tour – they have an extra rib and plenty of style
- Their dam "Forever Lady" cow family, needs no introduction if you have followed any of Eastondale's program

MINERS CREEK TRAVELER 16C

BW	SEPT 14/21 W	JAN 30/22 W	BW	WW	YW	MILK	CE
85	744	1170	+1.5	+49	+77	+24	+5

- An embryo calf from our old 22T cow who raised our Kodiak 5R son that sold to Rinas Stock Farm
- 50C son's are always in the top two-third's of the bulls and very eye appealing
- Strong maternal genetics and performance to boot

53

64	622	1140	-1.5	+50	+86	+22	+14

- A wide-based, strong-topped Final Answer son
- These were our first HiLow Dakota daughters to calve and they all look like they will grow into big-ribbed broody females
- Final Answer females have always been stellar producers in our herd
- Final Answer 0035 was one of the best calving ease bulls we've ever used, but still bringing in some of your top weaning weights

TERMS & CONDITIONS

CONDITIONS AND GUARANTEE: All entries sell with a responsible breeder guarantee of satisfaction. In the event of any unlikely dispute whatever, regular TERMS AND CONDITIONS recognized with Sales Management shall apply, and in accordance with the Canadian Aberdeen Angus Association Code of Ethics.

CATTLE INSPECTION: All carry permanent identity tags, corresponding to Sale Lot Numbers. All shall be available for inspection prior to sale.

ANNOUNCEMENTS: Errors discovered in the catalogue will be corrected by announcements from the auction stand at sale time and such corrections will take precedence over the printed matter in the catalogue.

EVERY ANIMAL: Sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final.

RELEASE: No cattle will be released until the conclusion of the sale. Each animal becomes the risk of the purchaser as soon as sold.

INSURANCE: Ownership risk to purchaser commences when the Auctioneer's hammer falls. Livestock coverage will be available at the Clerk's desk from the appointed representatives on sale day.

TERMS OF SALE: Are cash or cheque at par, payable to Clerks of the Sale on Sale Day. No release will be given until satisfactory settlement has been made. We reserve the right to withhold animals from export shipment for whom payments have not been received.

ALL PERSONS: Who attend the Sale do so at their own risk, and the Owners, Sale Management and Sale Staff assume no liability, legal or otherwise, for property loss or for any accidents that may occur

EPDs

- Expected Progeny Differences are values that predict how the future progeny of an animal will perform relative to the progeny of other animals in the same breed.
- Are expressed in the units measured of that particular trait. For example, weaning weight is measured in pounds.
- Allow a fair comparison of breeding value by removing environmental bias such as climate, feed and special management.
- Are the best tool available to compare animals between herds, countries and year of birth
