Welcome to our 18th Annual Bull Sale! As I write this, I think of all the positive and exciting changes we are seeing in our industry. With the decline in cow numbers over the last year and a half and still lots of cows moving, it should really put the guys who have stayed in the cow/calf sector in the driver's seat.

Whether maintaining smaller cow herds or trying to increase cow numbers – we truly feel our bulls on offer are the needed bulls at this time. I think high maternal, low input cattle are always necessary in a world of ever climbing input costs. We strive to raise high maternal cows and stay away from breeding to whatever the next fad is or breeding to bulls simply seeking high EPD numbers. We feel performance is extremely important – however, having longevity, fertility, and cows with superior foot and claw structure are first and foremost. We try to develop our bulls so they will last and breed as long as they can for our customers.

The bull calves are weaned early fall and backgrounded on free choice hay and a low percentage of their bodyweight of a high grain pellet. Mid-May the bulls go to pasture to graze a blend of sanfoin and cicer milkvetch. This grass blend helps develop the bull in a way that they can put pounds and extra flesh on while grazing forage. Come mid-October, the bulls come home to a diet of free-choice hay and a high grain pellet. We feed a low percentage of pellets again to the bulls to ensure they last and have longevity for our customers.

Anytime of the year we encourage people to come see our program. Through tough conditions or plentiful conditions, our cows always seem to maintain great body condition. If by any chance, our catalog didn't reach you in the mail this year and you are reading this online – please contact us so you can receive one ASAP and be added to the list for next year!

Blair, Lacey, & Wren Brooks

Over the past couple of years Jim J Henderson has toured our herd extensively and would be happy to answer any questions regarding this years sale bulls or females in the herd.

90% of our cows trace back to this highly sought after sire;
 once for sure, many 2-4 times.

OCC Legacy 839L has had a lasting impression on our cow
 herd. His daughters have the ability to adapt and thrive in
 tougher conditions and mature to high functioning 1300lb
 cows or flourish in high production operations as 1500lb
 cows.

Semen packages available (Canadian use only)

Looks, depth, lots of length, and huge maternal strength in this guy. We have pretty high regards for this bull, high enough that we used him on a handful of cows last summer. This bulls maternal brothers have gone to many of our long-term and repeat customers - Roger & Lou Parsonage, Murray Thronson, Don Oldenburg, Clayton Loewen, and Alcott Creek.

Thick, wide-topped bull. Heifer's 1st calf that she did a heck of a job on.

Please contact us to help you market your calves or aid you in finding high quality commercial females

NESSET LAKE ANGUS

Welcome to our 18th Annual All Black Bull Sale! Most of our bulls this year are sired by our walking herd bulls. Our customers have commented that our bulls off our herd sires are every bit as good as our AI'd sired bulls. So instead of just using our herd sires as clean up bulls, we used them as our main bull battery. Looking at the bull results this was a good decision. We select sires for balance of calving ease, fleshing ability and strong maternal traits. This fall we weaned September 24th after a very wet June, it turned the tap off in July and there was basically no rain the rest of the summer. It is amazing how good the pastures were after our ample rainfall and ended up with excellent pastures and above average haycrop. The bulls have been fed Masterfeeds Bull ration and free choice hay. They have been vaccinated spring and pre-weaning with Bovi-Shield BVD One Shot vaccine and Inforce 3 to aid in the prevention of respiratory issues.

Ranch life always keeps us busy, and Julie also helps Lacey run the kitchen at the Stockyards. Chris continues to drive truck in the oilfield around Smiley and Jenna is busy at home with their 3 girls – Madison in Grade 6, Jordynn in Grade 5 and Kaycee in Grade 1. The girls are in Horse 4-H and other various school activities. They enjoy coming to Meadow Lake to help with branding, hauling cows, weighing, and other ranch activities. Little Wren is 1 years old now and we enjoy working back and forth between the ranches.

We really enjoyed the hospitality of the 2022 Angus Tour in Maple Creek and area. It was great travelling to so many areas and ranches, and seeing how much the countryside can change in a short distance. We saw a lot of great cattle, were fed exceptionally well, and it was so nice seeing many old friends and meeting new ones!

Videos will be available on the DLMS website along with the catalogue. Anyone interested in viewing the bulls can stop by anytime for a visit – coffee is always on. Thank you to all our past buyers and we look forward to seeing you again this year.

Ivan & Julie Demmans and family

Nesset Lake Angus reserves the right to draw semen for in-herd use, from any of the bulls; at purchaser's convenience and seller's expense

- This bull was purchased as a package of embryos from J Square S Angus

TERMS & CONDITIONS

CONDITIONS AND GUARANTEE: All entries sell with a responsible breeder guarantee of satisfaction. In the event of any unlikely dispute whatever, regular TERMS AND CONDITIONS recognized with Sales Management shall apply, and in accordance with the Canadian Aberdeen Angus Association Code of Ethics.

CATTLE INSPECTION: All carry permanent identity tags, corresponding to Sale Lot Numbers. All shall be available for inspection prior to sale.

ANNOUNCEMENTS: Errors discovered in the catalogue will be corrected by announcements from the auction stand at sale time and such corrections will take precedence over the printed matter in the catalogue.

EVERY ANIMAL: Sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final.

RELEASE: No cattle will be released until the conclusion of the sale. Each animal becomes the risk of the purchaser as soon as sold.

INSURANCE: Ownership risk to purchaser commences when the Auctioneer's hammer falls. Livestock coverage will be available at the Clerk's desk from the appointed representatives on sale day.

TERMS OF SALE: Are cash or cheque at par, payable to Clerks of the Sale on Sale Day. No release will be given until satisfactory settlement has been made. We reserve the right to withhold animals from export shipment for whom payments have not been received.

ALL PERSONS: Who attend the Sale do so at their own risk, and the Owners, Sale Management and Sale Staff assume no liability, legal or otherwise, for property loss or for any accidents that may occur.

EPDs

- Expected Progeny Differences are values that predict how the future progeny of an animal will perform relative to the progeny of other animals in the same breed.
- Are expressed in the units measured of that particular trait. For example, weaning weight is measured in pounds.
- Allow a fair comparison of breeding value by removing environmental bias such as climate, feed and special management.
- Are the best tool available to compare animals between herds, countries and year of birth
