WHO WE ARE

Since 1996, the leadership team at WORC Solutions has maintained a straightforward goal: to assist clients in comprehending how to establish the most cost-effective contingent staffing programs in their respective industries. WORC Solutions has enabled companies to achieve their ideal workforce models by analyzing, designing, and implementing strategic staffing plans across the United States. We have supported everyone from start-ups to Fortune 50 corporations in understanding economical methods to attain their business objectives. Regardless of whether you represent a manufacturing organization or a premier healthcare facility, WORC Solutions offers innovative solutions tailored to meet your needs.

WHAT WE DO

WORC Solutions starts with an introductory call to gain insight into our client's specific needs. After ensuring that our strategies align with those requirements, we proceed to analyze your existing staffing strategies. Once we have a clear understanding of your current workforce model, we offer an overview comparing your present situation to potential opportunities within your industry. At this point, we explore the path toward achieving total workforce optimization. We accomplish this through best-in-class modeling and assist in designing a customized program tailored to your unique needs and industry.

ABOUT

The leadership team at WORC Solutions boasts over 25 years of experience in the staffing and consulting industries. We are supported by a network of professionals skilled in providing tailored strategies and talent to businesses across nearly every imaginable sector. Our expertise ranges from assisting startups to serving Fortune 50 clients worldwide. No client is too large or too small to benefit from our distinctive strategies and processes. In short, we are committed to giving you a competitive advantage in any industry you operate in.

WORC Solution's Unique Strategy

WORC Solution's approach stands apart from the rest. We collaborate exclusively with our clients to address their specific challenges, rather than competing with multiple companies for the same talent pool. This focused strategy enables us to dedicate our attention to each opportunity individually while leveraging a wealth of knowledge from best-in-class systems. As a result, we can customize each model to meet our client's unique requirements.

Employer of Record Services

WORC Solutions: Simplifying Contract Staffing with Our EOR Model

WORC Solutions recognizes that contract staffing is often a necessity rather than a choice. That's why we provide our clients with an Employer of Record (EOR) model that alleviates the challenges associated with high staffing costs.

- Tailored for Long-Term Needs: Our EOR model is specifically designed for clients who rely on contract staffing over extended periods.
- Manage Your Workforce: With our EOR, you can sustain a long-term contingent workforce without the risks, burdens, and expenses typically linked to this arrangement.
- ****Insightful Analysis****: Our proprietary analysis program enables you to grasp your total labor costs and strategically create a model that works best for your organization.

The ultimate objective of a genuine EOR is to help you manage your contingent workforce at a cost that is even lower than that of your core labor pool.
