This adult learning course focuses on improving workplace organization and safety using effective storage, signage, visual controls, checklists and tracking for sustained gains.

Participants learn to identify opportunities that will improve processes, reduce time spent searching, reduce excess and obsolete inventory, improve new hire orientation, free up needed space, improve quality and create workspace that is ready for show! Along with improving the usability of their workspace, participants will learn improvements that support moving toward zero accidents.

In this training, participants will not only learn the skills needed to improve but will implement identified improvements.

What participants will learn in throughout program:**8hr Train, 16hr apply, 24hr sustain**

- LEAN and 6S overview
- 6S benefits
- Visual controls & shadow boards usage
- Assess workplace for improvements
- Create an action plan
- Execute improvement plan
- Develop improvement sheets
- Sustaining progress
- Create improvement sheets
- Develop a sustainment plan

**At the end of the course and successful presentation of
improvement:**

- Each participant will receive LEAN 6S certificate.

Ideal candidates for this course:

- Frontline employees, area leaders, supervisors and managers in clinical, manufacturing, distribution automotive & office settings.
