Oh look Doggedly Dog Rescue Society is stacking dogs in WA boarding facilities now too... I'm so shocked. Not. Hopefully he doesn't end up there for years.

This isn't rescue.

This is the result of sending dogs on out of state transports with no plan and emotionally blackmailing people to foster last minute.

No reputable rescue does this.

Also - unsurprisingly - I don't recognize this dog.

Barbara continues to pull dog after dog after dog while the 60+ still rot, forgotten about, in her back bedrooms and boarding facilities.

Who is this?

Where is Karma?

Where are Benny and June?

Where is Elvis?

Where are the other dogs?

Why are they blocking anyone who has legitimate questions about their public charity?

Dear adopters 

I have a very special request.

Do I have anyone here who loves photography and is willing to help us take pictures of one of our dogs currently in a boarding place in Monroe WA.

We are in need to update his profile and we are desperate of new awesome pictures.

We are very grateful of any help we can get!
