Doggedly Dog Rescue Society and Barbara Zuluaga are at it again.

Still no word on the +/- 60 dogs that are rotting in boarding or Barb's house.

Everyone who asks questions is blocked from their Facebook, Instagram, Tiktok and personal pages.

Yet here they are pulling more animals and begging for more donations.

Why does this kitten get a foster home and Facebook post while so many dogs that they have already committed to don't?

Because this is how Doggedly makes their money. Instead of letting that kitten go to another organization that has the proper resources or kindly putting them out of their misery Barbara exploits them as a feeble attempt to garner money and attention.

Why anyone would give this organization money when they lack ANY and ALL transparency I will never understand.

This is a public charity and they hide the amount of dogs they have. They don't post vet bills. They hardly post adoption announcements. In fact when I used to upload vet bills in to our electronic record keeping system Barb went and deleted them because she said it was giving the adopters "too much information" and always asked us to redact that section of the records.

Does that make sense to anyone in rescue anywhere?

Katalyna claims I'm just "hurting dogs" by bringing this information to light but I think letting dogs sit in crates for 23 hours a day is hurting them. Especially when some of them have been in Barb's care since 2015.

I think allowing dogs to stagnate and suffer with medical issues and behavioral issues under A Chance to Bloom, blaming it on Jessica, letting them end up in a kill shelter, pulling them again just to shove them back in boarding or her back bedrooms is hurting dogs.

It's like a death row inmate. Literally nothing to look forward to aside from your yard time, your food, and the sweet release of death.

This is horrible. It's cruel. It's disgusting. And apparently it's what passes for rescue these days.

Doggedly Dog Rescue Society is 

asking for donations.

7 hrs • 

This morning a kitten in horrible conditions was found by a Good Samaritan in the middle of a busy street.

She was rushed to a local foster who specializes in kitten care. Upon arrival the foster realized this kitten was not well and in critical conditions of life and death.

She was rushed to [Gulf Coast Veterinary Specialists](#) and receiving a blood transfusion right now.

Her name is now Clover 

It was \$800 to triage Clover and about another \$800 for the blood transfusion. Please consider making a tax deductible donation towards Clover and her emergency care. Any little bit helps! 

~~Clover would have absolutely died in one more hour~~
