

Master Word Type Review Sort

This word sort is designed to be used as a review after all of the first level word types have been taught. Student should be aware of the article, noun, verb, adjective, adverb, preposition, and conjunction. (Montessori symbols below). Category heading cards are in bold. To prepare this material, print the pages of word cards, laminate, and cut apart. I recommend using colored dots on the back of each card to provide a control of error and create a self checking work.
