

Montessori Zoology

Beautiful paintings that match the outlines of the 5 zoology puzzles. Each image is full page, high-resolution. Print and display or make a lovely book for children to reference.

Outline drawings included.

I hope you enjoy these watercolor paintings of the Montessori Zoology puzzles. I painted them on an iPad with Apple Pencil. Each painting matches the puzzles. They will look beautiful displayed for the children as they work on these puzzles. The outline drawings are for you to use how you see fit. I love making books with the outlines that have 4 per page.

Enjoy!
