

Scrambled Egg Directions:

1. Print the following pages.
2. Cut each sentence into a strip.
3. Cut up the words within each strip and number the back in the correct order of the sentence. This way your child can check his or her own work. You can even write the numbers on the back in a different color for each sentence to help keep the sentences from getting mixed up.
4. Put the words from each sentence into a plastic Easter egg.
5. Have your child crack one egg at a time and unscramble the sentences.
6. Copy the sentence onto a piece of paper for writing practice.

Rob has a pet fish.

The fish is blue.

The fish can swim fast.
