Get Coloring Funky Animals!

by Sarahndipity Johnsen

About the Book

This inspirational coloring book illustrates 26 creative dance moves that support health, confidence, inclusion, and unique expression.

It's Fun for the Mind, Spirit, and Body!

Are you looking for ways to stimulate creativity and self-esteem or to support rest and relaxation? Or do you often need multiple creative options throughout your day?

Here's your chance to shine as a Unique Unicorn or express the attitude of gratitude with the Zoned-In Zebra.

Both dance and coloring have been shown to improve a number of emotional and mental health issues. Dance can help bring balance, boost serotonin levels, support oxygenation, improve performance, energize or calm, and more. Coloring can help improve focus, motor skills, and hand-eye coordination as well as teach color and spatial awareness. Both dance and coloring are great outlets for stress reduction and boosting imaginative play.

About the Author

As an award-winning educator, international entertainer, and philanthropist, Sarahndipity delights in crafting programs designed to inspire and enthuse. While obtaining her M.Ed., a fire lit within her inspiring books, albums, videos, curriculum, and live events. She loves collaboration and has joyfully co-created with Beats Antique, Bonnie Raitt, Taj Mahal, Buddy Guy, Joe Cocker, The Motet, and fabulously funky kids. She's even fire danced as a Pirate in the Caribbean. She and her husband share their love of music and dance through the airwaves of KAFM. Feel free to hop on the funky bus!
