FOOD SERVICE SUPPLIES & MORE

CAPABILITY STATEMENT

Distributors of:

- Core Competencies - Distribution and fulfillment of food service supplies to dining services. Specializing in compostable and sustainable food service packaging. We work closely with recycling departments and sustainability coordinators to ensure organic recycling compliance and consult with events and catering staff looking for zero waste opportunities.
- Differentiators - We offer over 1,000 unique compostable products and have a full understanding of the materials the products are made from, the certifications they hold, and how to appropriately manage the waste from these products. We offer full scale distribution with the option to store pre-purchased products while maintaining the customers personal inventory. In a time of shortages and manufacture delays we offer purchasers that are willing to plan ahead, the opportunity to always stay in front of supply issues. Our product specialists have been in the sustainable packaging industry for 20 years. My company is 100% Women Owned and CERT Certified.
- Past Performance - My company has supplied packaging to Huntington Bank Stadium, University of MN Retail Locations with Aramark and Compass Group USA, Local Costco Warehouses and hundreds of local and national private restaurant owners.
