Experience

DATA SCIENCE FELLOW | GENERAL ASSEMBLY | 2019 TO 2019

Completed 480 hour immersive program focused on learning to build and apply statistical models, data analytics, machine learning and programming to large datasets. Some of the projects I completed were:

- An Exploration of Predicting the Results of NBA Games
- Classification of Subreddits using Natural Language Programing
- Analyzing SAT and ACT Participation Rates
- Using Yelp Price Rating to Estimate Affluency
- Predicting Home Prices in Ames, Iowa

GUEST RELATIONS AMBASSADOR | EATALY | 2016 TO 2019

Took a retail position while looking for my next opportunity and could continue to utilize my client service skills. Responsible for creating and maintaining quality experiences for each guest. Created a system of standardized email responses to common enquiries. Delivered impeccable customer service.

PROPRIETARY EQUITY TRADER | T3 TRADING GROUP | 2012 TO 2016

Developed trading strategies using technical analysis. Identified trade opportunities by studying candlestick charts and executed prints. Designed tools to screen for potential trading candidates. Reviewed executed trades to improve trade performance.

RELATIONSHIP MANAGER | GW&K INVESTMENT MANAGEMENT | 2008 TO 2012 INVESTMENT ANALYTICS

Supervised relationships for over 600 accounts totaling more than \$1 billion. Delivered the firm's strategies and provided updates to third parties along with prospective and existing clients. Developed account allocations and investment strategies to maximize client needs. Instituted controls to ensure adherence to client objectives. Collaborated with multiple departments to streamline processes. Advanced and refined in-house analytical tools. Reviewed and tracked portfolio analyses of prospective clients. Utilized SQL to create customized reporting solutions and wide-ranging account metrics.

Education

MASTER OF SCIENCE | FINANCE | NORTHEASTERN UNIVERSITY

**BACHELOR OF SCIENCE | BUSINESS ADMINISTRATION | NORTHEASTERN
UNIVERSITY**
