

By Design

[Joe Vermeulen]

1. A sleepy Monday morning
Sunshine on my bed
Slowly I start waking
The first thing that I said

It has to be –
Creation by design

2. I look outside my window
Clouds passing by
A blue and white tapestry
(That) race across the sky

I have to say –
A beautiful design

Chorus:

Oh – what do I see
A beautiful world all around me
Engineering – to its core
It speaks of something more

3. The welcome smell of coffee
Drifting through the air
Beckons me to start the day
And push aside my cares

Aroma therapy
Pleasantly designed

4. A bowl of fruit for breakfast
A rainbow I can eat
Colours bright and beautiful
Wholesome and sweet

Thankfully
Tasty by design

Chorus:

Oh – what do I see
A beautiful world all around me
Engineering – to its core
It speaks of something more

Bridge:

Laughing, dancing, celebrating
Sing your songs of joy

Making memories
Missing family
Leaving a legacy

It's more than just design

Chorus:

Oh – what do I see
A beautiful world all around me
Engineering – to its core
It speaks of something more
