What Type of Service Work are you hoping for this Dog to do? *

Note

Dogs can't do any type of weight bearing or momentum mobility work until they pass Hips and Elbow OFA testing at 2 years old and is cleared by a vet.

Where did you get the dog from? (Breeder name) *

Did the dogs parents have the right health testing for their breed (OFA/PENNHIP). Note: an okay from the vet is not health testing *

yes

no

I don't know, but can find out

Note: hereditary issues like hip dysplasia can cause dogs to be washed out of service work. We can still except dogs who didn't come from health tested parents, but want to make sure their owner knows that there is a chance of a high unsuccess rate.

Has your dog gone through any type of formal training?

Did you get the dog with intent of being a service dog?
