## THE DEDICATION

### Of the 2024 WEBSITE

To God in Heaven—for earthly and heavenly consolations and gifts and revelations and help in my studies/innovations and for just enough desolations and obstacles to give excellence and humility to the work of Gyn Robotic Surgery & Naprotechnology in my state of the art practice.

To my family—my beloved husband, my children and spouses, my grandchildren and now their friends and playmates→ ...for everyone's continuing love and care.

To my friends—for support, long walks & chats, Pilates classes together, controversies, mutual respect, complaints and politics and kayak adventures and sailing!

To my patients—for your faith and courage as we work and journey together

To my mentors and amazing colleagues and teachers---for encouragement in seeing things differently and to never give up and improve a little each day!

To my colleagues-for gratitude in collaborations

There is a long list and chapter in my heart for each of you.
