

CONGRATULATIONS

Congratulations on taking your first step to becoming a trained Kambo practitioner. The benefits of learning this highly specialized skill set will enrich and radically transform your life in endless ways.

With a new string to your bow, you'll be equipped to create the life of physical, geographical and financial freedom you've always dreamed of.

Becoming a Kambo practitioner will not only allow you to support the healing of your family, friends and loved ones, but it will also expand your social circle, build a loyal network of clients and create a long-term sustainable lifestyle that will support you for years to come.

KAMBO PRACTITIONER TRAINING

The Kambo Practitioner Training course is an immersive 4-day training. You will be equipped with the skills, knowledge and materials needed to begin serving Kambo, along with ongoing mentorship, an incredible community and real-time support. You will learn the foundations of curanderismo and become familiar with trauma healing, as well as how to properly assess your client's intake form.

An added benefit of the training is the opportunity to connect with a community of selfless healers who are all on the path of radical responsibility and authenticity. At each training, alumni attend to connect and serve new students as well as to learn new modalities, as each training is uniquely co-created by the group who attends. All practitioners are later added to an official "Practitioner Map" which we share with our network.

This training course consists of 4 full days working with the medicine, as well as one self-application ceremony with supervision. You will shadow the lead practitioners and put the techniques that you've learned into practice, burning the gates and applying the medicine while under our close supervision.

Over the duration of the course, you will be given constructive feedback to perfect your skill set. This will allow you to address any issues that come up during the live applications. In CosmoVisions, we like to teach through mistakes. Prepare yourself to gain wisdom by applying the knowledge that you learn and have first-hand experience. Upon completion of the course, you'll be awarded a CosmoVisions Inc. Kambo Practitioner Certification.

YOUR GUIDES IN THIS PROCESS

Rene (Dust Walker) founded CosmoVisions in early 2018 after spending over 35 years in observation of the mental, emotional and physical illnesses being created in the modern world. By November 2018, he was joined by Shay (Sharmon) who propelled the mission of Cosmo Visions forward with great excitement and acceleration.

Rene brought a strong recognition of SELF and a knowing of his gift to the world; his ability to assist others in discovering their own uniqueness. Shay's business experience and intense life experience brought forth the tools needed to formalize a series of life-changing offerings for Cosmo Visions students.

Shay & Rene began teaching workshops, offering mentorships and traveling to share the gifts of their collaboration. Their combined protocols have the ability to guide humanity to deep healing by activating each person's unique medicine and awakening their gifts.

ONGOING SUPPORT

These classes are taught by Rene with the support of his wife, Shay Sharmon.

Rene's extensive knowledge and in-depth understanding of healing modalities brings an unrivaled level of experience and wisdom to the course. Being born in a lineage of medicine women, his knowledge of different cultures and healing modalities is unparalleled, and he is prepared to share these teachings with his mentees.

The learning continues after course completion, as we meet monthly for our Tribe Zoom Calls where you can share feedback, experiences and ask us questions as you begin working with others. Practitioners are also invited back to attend additional trainings as alumni, being in service to the new students and continuing their education with CosmoVisions.

Rene and Shay work with a myriad of healing techniques and tools which will be integrated into this training. Both are Certified Life Coaches as well as NLP Practitioners & CPR/First Aid certified and have numerous therapies available to share.

Please prepare yourself to be in a classroom setting, leaving your phone to the side. We do not suggest coming to this particular training until you are 100% committed to the training and having a willingness to employ a student-mentality for the entire duration of the class.

Please leave your children, animals and previous training knowledge at home for this course. We refer to this as “emptying your medicine bag” so that you can come and receive the knowledge in its entirety, and ultimately integrate all of your tools to curate your very own powerful practice that you will offer your community.

Basic meals and refreshments are provided. You will be fasting and eating a minimal diet during this training. Please inform us if you have any allergies or special needs. Please prepare yourself mentally for long days with no food, drinking only herbal teas and water until you receive Kambo and complete ceremony, around 3pm.

PRE-REQUISITES

We ask that you please sit with kambo medicine at least 1 time, and ideally 3 times before attending this training. You can utilize our [practitioner map](#) to find a trusted person close to you.

If you have not had a kambo ceremony in the last 6 months leading up to your training, it is important that you do so and prepare your mind/body/spirit-soul for an intense 3 days of receiving this medicine and jumping right back into the clinical setting to absorb the teachings. This can be very challenging, if the body is dealing with toxins and requires sleep for deep healing. We suggest up to 3 ceremonies in the month prior to the class.
