THE SCREAM TEAM

The Scream Team was created through GhoulieCon by a group of horror content creators who share a genuine passion for the haunt community. What started as a shared love for haunted attractions, Halloween, and all things spooky grew into a collaborative team dedicated to celebrating the people, creativity, and experiences that make the horror community so special. Through reviews, event coverage, behind-the-scenes content, and community engagement, The Scream Team aims to support haunts, spotlight creators, and keep the spirit of horror alive all year long.
